

City-Assisted Evacuation

In the event of a mandatory evacuation, the following locations will be used as evacuation pick-up areas called **Evacuspot**s. RTA buses will transport evacuees from these spots to the Smoothie King Center where they will be safely evacuated out of the city. Pick-ups from evacuspot end 30 hours before a storm reaches the area.

Senior Centers

Arthur Monday Center

2022 Hurricane Preparedness Guide

Use this guide in developing a hurricane
evacuation plan for your family.

Make a Plan

Now is the time to get prepared.

- Decide whether to evacuate or shelter in place before the storm. In the event of a mandatory evacuation, all residents and visitors must leave.
- Create a network of neighbors, friends, and relatives to assist you in an emergency.
- Inform your family and friends of your plan and determine how you will maintain contact with one another.
- Designate someone in your support network to keep an extra key to your home, access your emergency supplies and medication, and to check in on you.
- Stay in touch, stay informed. Listen to your radio or TV, and keep aware of changes in a storm. Sign up for NOLA Ready Emergency Alerts. Text **NOLAREADY** to **77295** or go to ready.nola.gov for more options.
- Be realistic about your ability to manage alone during and after a storm.
- Do you have a service animal or pet? Make a pet evacuation kit to include: a carrier, copies of vaccination records, ID tag or microchip, collar, leash, bowls, medications, food, manual can opener, and a photo of your pet. If you evacuate, take your pet with you.

Enroll in **Smart911** and share your medical information, especially if you have a disability, rely on electricity-dependent equipment, or have any mobility needs. This will enable you to receive customized alerts and resources that may be available during all types of emergencies. Visit www.smart911.com or download the **Smart911 app** (Apple Store or Google Play).

Create a List

Prepare for a loss of power when you won't have access to your cell phone or computer.

- Write a list of resources, contacts and important information: Phone numbers of friends and family members, primary care physician, pharmacist, and your local police/fire department.
- Collect and protect documents. In case of flooding, make sure copies of important papers, personal identification, insurance policies, social security cards and birth certificates are all in one place, ideally sealed in a plastic bag.

What can I bring on buses leaving from evacuspots?

1. One carry-on-sized bag for each person is allowed. The bag should be able to fit on your lap.
2. You should bring any medication you need. If you are a senior citizen, try to go to a Senior Center evacuspot. There are extra volunteers at these spots to help you.
3. Bring important papers you may need and extra money.
4. Bring something that can help us figure out who you are, like an ID card. If you don't have one, you will NOT be turned away.
5. Pets, 20 pounds or less that fit in a carrier should have an ID collar, leash, and medications. Your pet will be taken to an animal shelter nearby, where you will care for it.
6. We recommend you include face coverings masks and hand sanitizer in your belongings.

City-Assisted Evacuation (CAE)

What is City-Assisted Evacuation?

City-Assisted Evacuation (CAE) assists people in Orleans Parish who cannot leave the city on their own during a mandatory evacuation.

The RTA will provide transportation from designated evacuspots to the Smoothie King Center. From the Smoothie King Center transportation will be provided out of the city. Once safe, the CAE will transport citizens back to the Smoothie King Center.

All regular RTA bus routes ending at Duncan Plaza will make a final stop at the Smoothie King Center to drop off evacuees.

What is an Evacuspot?

Evacuspots are bus stops where you can get a safe ride out of New Orleans. These spots are marked by a statue that looks like a person holding one hand up.

- Five evacuspots are designated for seniors and people with medical and mobility needs.
- If possible, individuals with minor mobility or medical limitations should go to a Senior Center Pick-Up Location.
- If you can't get to an evacuspot because of medical needs, you might be eligible to be picked up from your home. Call 311 or register online at ready.nola.gov.

If a mandatory evacuation order is issued, you must leave.
