

## **SPRING TREE PLANTING**

The **Central Carrollton Association** ([ccaNewOrleans.org](http://ccaNewOrleans.org)) is working with Connie Uddo "NOLA Tree Project" to rebuild the tree canopy of our neighborhood.

We can improve our neighborhood by adding shade trees to our homes, keeping our streets cool and green. This **Spring** we hope to provide trees to any neighbors within the CCA - with a planting in **early April** (TBA). A group of CCA neighbors will assist with the plantings.

Please join us in this exciting effort. To date, we have planted over 475 trees in our neighborhood.

Trees can be planted on your private property or city property in front or beside your home. We only need a few things from you if you would like a tree for your home:

- 1) Your agreement to keep the tree(s) well watered for the first year.**
- 2) Because CCA is sponsoring the planting we will not need additional approval from Dept of P&P for planting between sidewalk and street.**

Please fill in the information on the back of this form, including the diagram indicating where you want the tree(s). Also, list your first three (3) choices of tree you would like planted.

"NOLA Tree Project" will provide 5 gal. trees to the CCA for a \$15 donation. Larger trees (15 gal) are available by special order. Make checks out to CCA and send or drop off to the address below along with the form. The Central Carrollton Association tree committee asks for additional volunteers to help with the planting this **Spring**. If you are interested in helping with the plantings, please call 504-861-8465.

Check out Connie's website ([www.nolatreeproject.org](http://www.nolatreeproject.org)) to see what she is doing. Please help to support her effort.

**Let's make Carrollton Green again !**

Please return this form, with a \$15 per tree donation by **March 30th** to:

Barry Kohl  
CCA Tree committee  
1522 Lowerline St.  
New Orleans, LA 70118  
504-861-8465  
[bkohl40@cs.com](mailto:bkohl40@cs.com)

We will contact you before the planting in **April**

**Choose your trees:** Place a 1 by the tree you most want planted, 2 for the next choice and 3 for your third choice.

- |                                    |   |                                       |
|------------------------------------|---|---------------------------------------|
| <input type="checkbox"/> Live Oak  | <input type="checkbox"/> Cypress            | <input type="checkbox"/> Crepe Myrtle |
| <input type="checkbox"/> Green ash | <input type="checkbox"/> Japanese Mag.      |                                       |
| <input type="checkbox"/> Red Oak   | <input type="checkbox"/> Sweet Bay Magnolia |                                       |

If you have power lines (not cable or phone) above your site, choose a tree which has limited height such as Japanese Magnolia or Sweet Bay Magnolia. Live oak can be planted since they can be pruned without damaging the tree shape.

**Planting Diagram:** Mark location(s) where you are requesting a tree to be planted and identify the tree.
