Discussions & Insights

1

LAYOUT & DESIGN

Selecting the most effective layout and design when you are first starting can be challenging and overwhelming. This session will cover some of those topics and resources when picking your design setup.

2

PASTURE SCORING

Identifying problem areas and addressing them from all angles. This session will walk through the pasture condition score sheet and how to translate the "score".

3

NEXT STEPS

Where to go and what to do when the master plan comes together. This session will cover financing options, resources and networks.
