HAIR - NEAT BALLET BUN

HOW TO DO A NEAT BALLET BUN

- Start with damp hair – spray lightly with water or smooth in some gel/hairspray to control flyaways.
- Brush it back – gather hair into a high ponytail (around the crown of the head) and secure tightly with a hair elastic.
- Twist the ponytail – gently twist the hair until it coils.
- Wrap into a bun – wind the twisted ponytail around the base, forming a flat bun.
- Secure with pins – use bobby pins or hairpins all the way around, close to the scalp, to hold it in place.
- Net & spray – pop a hairnet over the bun (same colour as hair), then add more pins if needed. Finish with hairspray to keep it neat.

✨ Tips for little ones:

- Sit them in front of the TV or give them a toy/book while you do it.
- If hair is very fine, use a bit of mousse/gel before starting.
- A bun donut or a cut sock can help if the hair is very short or thin.
