District to District Transfer Guidelines

- Due by February 1st
- Must be signed by District you are leaving President and District you are entering President along with the State President.
- Transfers are not necessary for JH members
- The District a member signs up for as a freshman or first time member is the District in which they will belong to for the duration of their High School career.
- If a member has rodeoed in a District while being a HIGH SCHOOL member and now wishes to rodeo in a different District, they must fill out this form and get approval from both Districts.
- If a member starts in one District and transfers during the regular season, the points they have acquired in the previous District, do not transfer to the new District they are going to.
- If a member lives outside of the District boundaries but has not been a member in either District before, they do NOT need a transfer form.
- If a District wishes to refuse a member being transferred, there must be just cause.
- Transfers are to be treated like everyone else in the District and are required to join a club, just as any other IHSRA member is required to do, and must be in good standing with their club to help with fundraisers, club dues, club meetings, club duties when hosting rodeos, sell trailer tickets for the State Scholarship Fund, District dues, or whatever that club/District requires, etc, or they will not be eligible to compete in rodeos.
- Out of State Transfers do not need a District Transfer as they will select the District they choose to join at time of membership.
