Dear Physician:

For prosthetic replacement liners/sleeves to be covered by Medicare, all applicable Medicare statutory regulatory requirements must be met. Medicare requires a physical evaluation of the patient, and the following bullet points must be included in the physician's chart note (Medicare does not consider a letter part of the medical record.) Please fax any Medicare compliant chart notes to our office.

- The physician will need to document in his clinical note that the patient uses their prosthesis and that your current prosthetic supplies and/or liners and sleeves need to be replaced due to wear and tear and cannot be repaired.

Thank you, and please let use know if you have any questions or concerns.
