CONSENT TO OBTAIN EXTERNAL PRESCRIPTION HISTORY/E-PRESECRIBING CONSENT FORM

ePrescribing is defined as a physician's ability to electronically send an understandable prescription directly to a pharmacy from the point of care. Congress has determined that the ability to electronically send prescriptions is an important element in improving the quality of patient care. ePrescribing greatly reduces medication errors and enhances patient safety.

By authorizing Vascular Care Specialists of Los Angeles, you allow us to view your external prescription history.This will provide the physician with information about medications the patient is already taking to minimize the number of adverse drug events.

I understand that prescription history from multiple other unaffiliated medical providers, insurance companies, and pharmacy benefit managers may be viewable by my provider and staff here, and it may include prescriptions back in time for several years.

By signing this consent form, you are agreeing that Vascular Care Specialists of Los Angeles can request and use your prescription medication history from other healthcare providers and/or third-party pharmacy benefit payers for treatment purposes.

My signature certifies that I read and understood the scope of my consent and that I authorize the access.
