

Dear Valued Supporter:

The Salartash Family Foundation's Pickled Pink Breast Health Initiative is excited to announce our 2-day Pickleball Event on October 10th and 11th, 2026! The fun kicks off on October 10th at ProShot Pickleball (Egg Harbor Township), where intermediate and high intermediate players can enjoy a day filled with exhilarating matches and friendly competition. Then, on October 11th, we'll continue the action at Pickle Juice Pickleball Club (Ventnor), showcasing the skills of advanced players and connecting with fellow enthusiasts. Don't miss your chance to be part of this pickleball extravaganza!

We hope you will consider sponsoring and/or joining us for this fun and active event, which will also help offset the unexpected costs that so often burden patients. Many breast cancer patients grapple with the realities of their diagnosis and varying treatments, only to discover unexpected challenges as well: purchasing undergarments and wigs, finding transportation to treatment facilities and doctor appointments, and even affording everyday essentials like grocery and utility costs. In partnership with cancer centers serving Atlantic County, the Pickled Pink pickleball tournament donates 100% of the proceeds to fulfill our mission and address these needs.

To date, our Pickled Pink event has raised over \$200,000 to support those in our local community battling this devastating disease. With your support and in partnership with Cooper Hospital/MD Anderson Cancer Center, The Cancer Center at Shore Medical Center, AtlantiCare Cancer Care Institute, and Jefferson Health, we have assisted patients purchasing post-mastectomy garments, wigs, mortgage and rent assistance, utility assistance, food assistance and help with transportation costs to treatments.

Please consider joining us in this effort through sponsorship, play, raffle items, or all the above! Details are included—now let's get dinking!
