

# **FINE ART vs. CONTEMPORARY**

## **What Is Included in the Fine Arts?**

Traditionally there were five main types of fine art. These fine arts were paintings, architecture, sculptures, music, and poetry. However, the new list of fine arts has expanded to include additional forms, and there are now seven established forms of fine art.

### **Which Are the 7 Fine Arts?**

1. Painting
2. Architecture
3. Sculpture
4. Music
5. Poetry
6. Performing Arts
7. Photography

Fine art is usually produced in limited quantities, or more often, they are a one-of-a-kind piece. Because fine art is produced in smaller quantities, it is considered rarer and can typically demand higher prices

### CONTEMPORARY ART

- The definition of contemporary art is the sculpture, painting, and other creative works that are from the current time, or since World War II. An example of contemporary art is graffiti art that is shown in a museum.

The age of contemporary art is believed to have begun after the Pop Art period of the 1960s.
