

Out of Residence Area Daycare Form Elementary Education

Date Received _____

Elementary students who live in the Renton School District are permitted to attend the Renton Elementary School in the areas in which their daycare is located. For this purpose the daycare is treated as the student's "residence" as long as the student continues to attend the daycare or until the beginning of middle school attendance. For a daycare to be treated as a student's "residence", the student must attend the daycare for three or more days per week and attendance must stay/be in good standing. Registration for students attending out-of-residence daycares is required annually.

Please note: If a daycare transports to more than one school and the student resides in one of those areas, the student needs to attend their home school. If a daycare transports to more than one school and the student does not reside in one of those schools, then the student will attend the school where the daycare address is located.
