THE PHILOSOPHY

Bringing your inner world to the outer world. Traditional assessments focus on deficits. We focus on how your unique brain actually works. Get diagnostic clarity for ADHD and Autism that works **with** your brain not against it.

THE PROCESS

1. Initial Consultation (90 mins)
2. At-Home Questionnaires (self paced)
3. Review Session (120 minutes)
4. Custom Report & Plan

WHO IT'S FOR

For patients seeking an active, collaborative evaluation that honors your unique strengths and sensory needs.

- **Diagnostic Clarity:** Learn how your ADHD or Autism actually presents.
- **The Blueprint:** Visual map of your unique strengths and sensory needs.
- **Action Plan:** Work with your brain to support where you struggle.
