Dear Mr. Madan,

I hope this message finds you well.

Following our recent telephonic discussion, you had kindly assured us that the payment would be processed before the end of April. As the month is now coming to a close, we are writing to kindly request an update on the status of your payment.

As a gesture of goodwill and based on your special request, we had extended the original payment deadline. However, please be informed that without receipt of the payment, we may not be able to continue holding the agreed terms, and the offer extended to you could be subject to withdrawal.

If you are facing any challenges or require any assistance to complete the process, please feel free to reach out to us immediately. We are here to support you.

We highly value your interest in AAA and sincerely hope to move forward successfully.

Looking forward to your prompt response.

Warm regards,

Dear Mr. Madan,

Thank you for your email and for your willingness to proceed with the accreditation process.

Please find attached the invoice for the first payment of \$900. Kindly let us know once the payment has been completed so that we can proceed further with the accreditation process.

To clarify, the 3-year AAA Accreditation Investment Plan means that once your company is accredited, the accreditation will remain valid for three years. During this period, you will receive all the benefits associated with AAA accreditation.

Should you need any further assistance, please feel free to reach out.

Hello colleagues,

After a 10-11 days I am communicating further to all of you learned in regard to 03-year Investment accreditation plan

and I express my willingness and acceptance of what is reasonable in this concern to speed up the process of accreditation

removing any misunderstanding, In fact, When I requested for TEPA accreditation within a year after the ZOOM Meeting, unwilling

things began to develop. So I break the deadlock here by agreeing for first payment of \$ 900 before the accreditation process begins and the

remaining balance after completion of the accreditation process and issuance of accreditation certificate. In this respect I request all of you

to help me understand what is real meaning of 03-year AAA accreditation Investment plan when we are moving for accreditation investment

fully within a year. Thanks & regards.

Dear Mr. Sushil,

Thank you for your email. I believe there is a small misunderstanding regarding the payment terms. As clearly mentioned in the quotation, the **first payment** is required **before the accreditation process begins**, and the **remaining balance** is due upon completion of the accreditation and issuance of the certificate.

I'd be happy to connect with you over a call to clarify the details further. Please let me know your availability so we can schedule a convenient time to discuss.

Looking forward to your response.

Dear Mr. Madan,

Thank you for your email. It's great to hear that you have decided to proceed with the accreditation. We appreciate your commitment and look forward to supporting you through the process.

We would like to highlight that the accreditation process typically takes **1 to 3 months**. If you prefer, we can issue the accreditation certificate at the beginning of August 2025, which will be valid for three years.

As discussed, we will adjust the **\$450** amount that you have already paid against the accreditation fee. Please find below the detailed **payment breakdown**:

Payment Terms	Amount
First Installment	\$1,350
Amount already paid	-\$450
Remaining amount for First Installment	\$900
Second Installment	\$1,350

Now, you need to pay **\$900** to initiate the accreditation process.

Additionally, please find attached the **investment plan** for a **3-year accreditation**, which outlines all the necessary details for your review.

Kindly review the attached document and let me know when I can expect your confirmation so that I can ensure my availability for further assistance.

Looking forward to your response.

Dear Mr. Madan,

Thank you for your message and for your continued interest in pursuing the 3-Year AAA Accreditation under our investment plan. We appreciate your sincerity and commitment to aligning your institution with the American Accreditation Association (AAA) and its global recognition standards.

As you are aware, we initially provided the quotation in January 2025 and, based on your request, extended the payment deadline until the end of April. We understand the challenges institutions may face, however, we would like to clarify that a further extension until the end of July is not possible at this stage.

Since your new academic session is scheduled to begin in July 2025, it is essential to initiate the accreditation process immediately. The full accreditation process typically takes **1.5 to 3 months** to complete. Therefore, to ensure everything is in place before your academic term begins, we kindly urge you to proceed with the payment no later than **end of May 2025**.

Please also note that until the accreditation is officially granted, the use of AAA's name, logo, or any reference for promotional or advertising purposes is strictly not permitted. We hope to receive your confirmation soon so we can proceed with the process in a timely manner. We are here to support you throughout and look forward to working with you on this important initiative.

Dear Mr. Madan,

Thank you for your message.

As discussed previously, we have already provided you with the best possible discount. However, we fully understand your situation. As a special favour to support you in completing the accreditation process, the management has approved an **additional 10% discount on the remaining USD 2,700.**

Calculation

Remaining amount for accreditation: USD 2,700

Additional 10% discount: USD 270

New payable amount: USD 2,700 – USD 270 = **USD 2,430**

Installment Plan

You may pay the revised amount in 2 installments:

1st Installment (50%):

USD 2,430 ÷ 2 = USD 1,215

From this, USD 450 already paid for membership will be adjusted.

Amount to pay now: USD 1,215 – USD 450 = USD 765

2nd Installment (50%):

USD 1,215

Total payable: USD 765 now + USD 1,215 later = USD 1,980

Please let me know once you are ready to proceed so we can update your invoice

accordingly. I am here to support you with any further assistance.

Warm regards,

Babita S.

Dear Mr. Madan,

Thank you for your email and for informing us of your decision to proceed with the 3-year AAA Accreditation Plan for one course (Bachelor Course). We appreciate your clarity and are pleased

to support you in moving forward.

As per your request, we have revised the plan and prepared the updated installment structure based on the accreditation fee for one course.

**Accreditation Fee for 1 Course (Bachelor):
USD 1,800 (for 3-year validity)**

Revised Installment Plan (2 Payments)

1st Installment – 50%:

50% of USD 1,800 = USD 900

Adjustment of USD 450 (already paid earlier for membership)

Amount payable now:

USD 900 – USD 450 = USD 450

2nd Installment – 50%:

Payable before issuance of the accreditation certificate:

USD 900

Total Remaining Amount Payable:

USD 450 now + USD 900 later = USD 1,350

Once we receive the first installment of USD 450, we will immediately initiate the accreditation process for your Bachelor Course.

Please let us know if you would like us to issue the updated invoice for the revised amount.

We look forward to assisting you further and completing your accreditation smoothly.

Dear Sushil,

Thank you for your message and for reaching out to clarify the pricing details. Let me explain the structure so there is no confusion:

AAA Accreditation Fee Structure

Our accreditation fees are **not charged per course**.

We follow a **base accreditation fee**, and the total amount depends on:

- The number of courses, and
- The scope and depth of each course.

Why the fee differs

- The **USD 2,700** amount you referred to was part of a **special discounted package** offered earlier for three courses.
- The **USD 1,800** for one course is the **revised minimum accreditation fee**, also already highly discounted due to his financial situation.

So, the fee is **not USD 900 per course**—that was the *discounted breakdown* only when the full three-course package was considered together.

Support for his current situation

We understand he is facing financial challenges and still wishes to proceed with at least **one course**.

To support him, we are offering the **minimum possible discounted fee** of **USD 1,800** for a single-course accreditation.

He may start with one course now and add more courses later whenever he is ready. We will apply supportive pricing for additional courses at that time as well.

If you need further clarification please let me know—I'm here to help.

Warm regards,
Babita S.

Dear Sushil,

Thank you for your email and for seeking clarification regarding the pricing structure for future course additions.

We fully understand your situation, which is why we have offered the **lowest possible price** at this time. However, please note that **pricing may change next year**, and unfortunately, we cannot commit to or guarantee what the revised fee will be at that time. For this reason, we strongly recommend considering the **first option**, where all three courses are accredited together under the current discounted rate.

That said, there is **no problem at all** if you wish to proceed with accreditation for **only one course** at the moment. You can always add the remaining two courses later, but the price for future additions will be based on the applicable rates at that time.

We also kindly request that you complete the process at your earliest convenience, as this application has been pending for quite some time.

Please feel free to reach out if you need any assistance or if you would like to move forward with the preferred option.
