

# **TERMAL** SERAMIK

COVERINGS **2023** COLLECTION

Ceramic is today's one of the most modern and technological decoration materials and it was used since the beginning of the history.

Combining technology with nature and human, "Termal Seramik" was founded in Sögüt, Bilecik in 1995 to create value for its customers with different needs and demands. First factory started production in 1997, and second factory started production in 2005. After the new investments during the last 2 years, completed in December 2021, Termal Seramik increased its capacity up to 28.000.000 m<sup>2</sup> per year.

New investments enabled Termal Seramik to produce porcelain floor tiles of sizes such as 80x80 / 31"x 31", 60x60 / 24"x 24", 60x90 / 24"x 36", 40x80 / 16"x 32", 60x120 / 24"x 48", 75x150 / 30"x 60"; wall tiles of sizes such as 30x90 / 12"x 36", 30x75 / 12"x 30" and parquet porcelain tiles such as 15x60 / 6"x 24", 15x90 / 6"x 36", 20x90 / 8"x 36", 30x120 / 12"x 48, Regular porcelain products of sizes 30x60 / 12"x 24", 45x45 / 18"x 18", and 33x33 / 13"x 13", and wall tiles of size 30x60 / 12"x 24", 10x20 / 4"x 8", 10x40 / 4"x 16" are being produced as well. Our factory is capable of offering all these products in rectified and non-rectified solution. Color body and 20 mm thick tile products are also offered to customers.

Employing around 1.300 people for production, Termal Seramik is running its production under strict Total Quality Assurance System with domestic and international certifications.

With our Hydrogen Conversion Facility, which we put into operation in the first days of 2023, we broke new ground in the sector and once again demonstrated our respect for nature. On account of the Hydrogen Conversion System, which is commissioned to operate in integration with our natural gas system, we have taken a serious measure against air pollution by minimizing our polluted gas emission values. While producing the "Termal" State of the Soil, respect for Mother Earth and nature has always been our priority and will continue to be so.

Our purpose and major objectives are to satisfy customer needs; to contribute to national economy; to fulfill our duties for the environment and the society; and to put Total Quality Assurance System into our top priority in order to become the leader in our sector and in continuous technological innovation.
