## **Leadership Development Scoring Worksheet**

Count the checks for each skill set category:

Total Score: (Add up your ratings)

### Score Interpretation:

32-36: Exceptional leadership skills

27-31: Strong leadership skills

22-26: Moderate leadership skills

17-21: Developing leadership skills

0-16: Need for significant leadership development

Use this worksheet to identify your strengths and areas for growth. Focus on developing the skills that will have the greatest impact on your leadership effectiveness.

Remember, leadership is a journey, not a destination. Continuous learning and development are essential for staying ahead of the curve and leading your organization to success.
