

## **Do your job — not Trump's bidding**

You swore an oath to the Constitution, not to a man. Yet you remain silent — or worse, complicit — as Donald Trump promises to round up Americans, strip away civil rights, and rule like a dictator.

Sending immigrants, asylum seekers, and U.S. citizens to rot in foreign prisons echoes the darkest chapters of history — including Nazi Germany, where people were dehumanized, detained, and disappeared while “good Germans” looked away.

**This is not strength. This is not law and order.**

**This is fascism.**

You are helping destroy what makes America worth fighting for: freedom, justice, democracy. The damage is already deep — to our institutions, our safety, and our global standing. But it's not too late to choose integrity.

**History will judge you. We already are.**
