## About the Artist

Khervin John Gallandez (b. 1992) is a contemporary figurative painter from Laoag City, Ilocos Norte who employs the human form as a central metaphor in his work, crafting narratives that delve into the themes of resilience, vulnerability, and the interplay between the physical and the metaphysical. His evocative compositions balance finely rendered figures with symbolic imagery, creating a tension that invites introspection and emotional engagement.

Primarily working in oil, Gallandez imbues his canvases with depth and intensity by employing impasto technique in rendering his charged figures. His ability to merge figurative realism with surreal undertones gives his work a distinctive edge, resonating with viewers through its raw emotional power.

Gallandez has participated in exhibitions at major galleries in the Philippines and has showcased his work internationally, steadily building a reputation for his compelling and thought-provoking art.
