- ❌ Had to wear shirts to cut down on scratching
- ❌ Multiple visits to veterinarians, multiple times antibiotics did nothing, antihistamines did nothing, experts could find nothing
- ❌ Tried sprays and topicals – no improvements
- ❌ Top of the line protein food grain free including raw freeze-dried food, tried switching at first, did nothing so went back to original since he was a baby, currently 5 years of age – it wasn't the food
- ❌ His coat became scarce, belly looked terrible with sores, so sad
- ❌ Finally hit on the winning combination INSIDE the body & voila – GONE!
