

**PREAMBLE FOR THE NET CONTROL STATION  
East Alabama Amateur Radio Club 2 Meter**

CQ. CQ. CQ. Attention amateurs, this is the East Alabama 2 Meter Net. Your Net Control Station for tonight is \_\_\_\_\_. My name is \_\_\_\_\_ and my QTH is \_\_\_\_\_.

This net meets at 7:30 PM Central Time every Thursday evening on the 147.15 repeater.

The primary purpose of this net is to foster friendship among hams in this area and to provide a central focal point for all communications in the event of an emergency.

Any station that can hear this repeater is invited to check in.

Please indicate as you check in if you have any announcements or bulletins for the net. First, we will take a standby for any mobile or short-time stations.... please come now.

We will now begin roll call:

Are there any stations with an Alpha call?

Are there any stations with a November call?

Are there any stations with a Whiskey call?

Are there any stations with a Kilo call?

<< Go back through roll call for comments and/or announcements >>

Any other check ins?

Any other comments, queries, or re-checks?

Hearing none, we will close this net at \_\_\_\_\_. We thank everyone for checking in. This is \_\_\_\_\_ signing off and returning this repeater back to normal amateur use.
