FOREWORD

Reflecting back on our third year here at Insights for Education, we focussed sharply around transitioning from education system reopening to learning recovery, enabling us to elevate the mission we initiated just weeks before the pandemic began.

We are extremely proud of the progress we have made but even more so, excited for what is to come in the upcoming year.

We are continuing to forge strong partnerships with integral individuals and groups who are helping to support and uplift our work.

Alongside our partners we have:

... released our first synthesis prototype with a focus on Accelerated Learning Programmes. Incorporating a wide range of sources, this synthesis is a first of its kind for policy leader and education decision makers, offering key lessons gleaned from experiences with learning recovery from education in emergencies;

And, strengthened partnerships with Ministries of Education to improve accelerated education policies and guidelines to help coordinate implementing partners and align accelerated education programs to the formal education system, while also strengthening infrastructure for greater evidence use.

It is with deep gratitude that we acknowledge and appreciate the support of our Co-Investor Collective, our Board of Directors and Advisors, and our talented team of dedicated professionals. It is with their trust and determination that we are able to advance in fulfilling our mission, advancing evidence for every learner.

Dr Randa Grob-Zakhary, Chief Executive Officer and Founder

KEY ACCOMPLISHMENTS
PAGE 13

FINANCIAL REPORT
PAGE 19

INSTITUTION AND GOVERNANCE
PAGE 25
The world is not on track to achieve SDG 4* by 2030.

**THE CHALLENGE:**

Education empowers people and societies, but...

- 260 million children are not in school
- 6 in 10 are not achieving basic proficiency
- Education reforms are not scaling up
- The number of crisis-impacted school-aged children has grown from 75 million to 222 million

A wealth of evidence and experience is not being used by policymakers and practitioners.

*United Nations Sustainable Development Goal 4: “Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all”*
We are an initiative of Insights for Education, a young foundation created to advance evidence and improve education for every learner.

Team of diverse experienced education professionals with education at our heart.

We create global public goods & work at country-level with education leaders.

Registered in Switzerland & operational since 2020; investors & partners in Africa, Asia, Middle East, Europe, and North America.

We are supported by a visionary co-investor collective committed to equity and quality in education & are growing partnerships across governments, agencies, NGOs, universities, businesses and foundations around the world.
OUR VISION
A world where the best evidence guides education leaders to improve education for every learner.

OUR MISSION
Our mission is to advance evidence & improve education for every learner. We do this by making existing evidence easier for education leaders to access & use in plans, policies and guidelines.
OUR VALUES

- Independence
- Transparency
- Inclusion
- Collaboration
- Impact

WE AIM TO BE A BENEVOLENT DISRUPTOR AND AN EAGER BRIDGE-BUILDER ACROSS THE EDUCATION ECOSYSTEM.
OUR CORE PRINCIPLES

- Maximise use of existing evidence, as opposed to creating new evidence
- Focus on concerns of decision-makers across government and society
- Combine evidence with practical experience & purposeful coalitions among current networks
- Broaden the range of evidence used: translate global evidence into local contexts & elevate local evidence/experiences
- Enable implementation of evidence into sector plans, policies & practices that address barriers to learning
- Build on successful transformation from the health sector

WE ARE EAGER TO MAKE A UNIQUE CONTRIBUTION TO ACCELERATE PROGRESS IN EDUCATION
RIGHT TIME, PLACE & CHANNEL
Tailored engagement and communications to facilitate transfer of evidence into policies and practices.

RIGHT CONTENT
User-centered, action-oriented, context-specific, inclusive of wide range of sources and languages.

RIGHT PEOPLE
Purposeful matching of individuals and groups around specific needs, goal-oriented convening of policy and practice leaders.

ADDING VALUE TO EXISTING INITIATIVES
OUR GOALS

GREATER USE OF EVIDENCE FROM WIDE RANGE OF COMMUNITY FRONTLINE EXPERIENCES IN EDUCATION

STRONGER CAPACITY, CULTURE, SUPPORT & NETWORKS FOR EVIDENCE-LED POLICY AND PRACTICE WORK FOR BETTER USE OF SCARCE RESOURCES

POLICY AND PRACTICE IMPROVEMENTS FOR LONG-STANDING PROBLEMS

QUALITY
IMPROVED LEARNING OUTCOMES (SDG 4.1, 4.2)

EQUITY
REACHING ALL LEARNERS, ESPECIALLY THE MOST MARGINALISED (SDG 4.5)
HOW WE ADD VALUE

We seek to enable and ease the use of evidence to improve education, for every learner.

1. **Investigate**
   - We investigate barriers to improved learning and the underlying reasons they persist
   - Listening to and working with policymakers and practitioners to understand current situation and most critical needs
   - Developing comprehensive and living map of relevant actors and initiatives for Ministries of Education
   - Co-designing interventions with key stakeholders

   *We deliver situation / stakeholder / capacity assessments and coherent intervention plans.*

2. **Equip**
   - We equip education leaders with resources and recommendations anchored in evidence
   - Identifying the best available science (from learning sciences, development, and behavioural science), field evidence, and EMIS data
   - Including unpublished reports from grey literature and elevating community voices
   - Synthesising relevant evidence into simple summaries and guidance

   *We deliver practical resources, comprehensive analytics, and actionable recommendations.*

3. **Advise**
   - We advise education leaders and their teams on how to systematically access and use evidence
   - Facilitating learning loops and plan adjustments during implementation
   - Providing grants, training, capacity-building fellowships, expert support, and solution-oriented convening
   - Brokering new relationships and strategic partnerships around specific challenges

   *We deliver expert support, network-brokering, implementation facilitation and thought leadership.*

We differ from existing initiatives by focusing on the USE, and not the creation of evidence.
KEY ACCOMPLISHMENTS

“It is quite common for people to make policies based on gut feeling or history or their perception... We want to use evidence to inform our policy. Evidence can come from other countries and from local experience. We actively test innovations and their potential to scale. Also, citizen engagement in building and testing innovations is a principle we care about.” — Dr David Molinina Sengeh, Minister of Basic and Senior Secondary Education in Sierra Leone.
The gap between what we know ... and what we do in education lies at the heart of a global learning crisis.

The learning crisis demands dramatic system improvement urgently. Despite huge progress and many important initiatives, the communities of research, policy and practice are often independent islands of activity making worthy, but uncoordinated attempts to bridge the gaps.

This White Paper, created for anyone interested in improving education outcomes, responds to discussions with policymakers, practitioners and researchers. It reflects interviews with 80 education sector leaders, analysis of more than 45 organisations and a review of 80 major reports and 8 collaborative initiatives in education. It highlights that it is not the lack of new research that is the greatest obstacle to progress, but the failure to use what we already know.

The result is a call for collective action across education actors to span the knowing-doing gap by building an “Education Knowledge Bridge”.

“

There is a tremendous amount of data and research that is not accessible and heavily under-utilised. We would all benefit from efforts to routinely surface this information and to make it more accessible and useful for leaders influencing education decisions.

Andreas Schleicher, Director for the Directorate of Education and Skills, OECD
Our **Synthesis Design Blueprint** puts into practice the call to action and commitments we made in our White Paper: Calling for an Education Knowledge Bridge and is a significant step to mirror knowledge gathering in other sectors such as Health.

Utilising **design thinking**, Insights for Education has created a process that offers:
- A **fundamental pillar of our operating model** to support our unique value for the education evidence ecosystem, for any thematic topics
- A **basis for implementation plans** with scale, technology and cost considerations
- A **platform for prototyping** a first synthesis product about Accelerated Learning
ACCELERATED LEARNING SYNTHESIS

WHAT
Applying our novel approach to including traditionally excluded grey literature from frontline actors, our global synthesis provides new and distinctive guidance for policy leaders facing challenges related to accelerated and catch-up learning. Five essential leadership lessons for policy leaders and their technical leadership teams offer frameworks for decision makers to inform choices, take policy actions, and develop national guidance.

WHY
In the wake of COVID-19, there is significant concern as marginalised children that were already disadvantaged have been left even further behind and calls for catch-up have not been met by evidence-informed guidance. Insights for Education’s synthesis focused on Accelerated Education Programmes (AEPs) and their role in post-COVID-19 recovery using the best available evidence to focus on concerns of decision-makers across government and society.

The guidance, as well as the synthesis, should be interpreted in that wider context and be seen, rightly, as evidence for addressing the global learning crisis and accelerating the progress towards achieving SDG 4. This is a useful tools for developing policies and programmes that will address both crises.

Deng Deng Hoc Yai,
Former Minister of Education South Sudan; and Co-Chair, Education.org Global Council
COUNTRY IMPACT

Building on our three-year programme Leading with Evidence to Achieve Real Reform Now (LEARRN), Insights for Education is contributing to strengthening access and improving outcomes for Kenyan learners through strengthening and embedding evidence use in policy.

Insights for Education is working closely with Kenya’s Ministry of Education and its partners to strengthen guidelines for accelerated learning with good examples and effective practices identified from our accelerated education evidence synthesis. Furthermore, this work is being used as an example to more broadly strengthen evidence-informed policy work across ministerial priorities.

Further engagement has been requested from additional Sub-Saharan African Ministries who want to utilise accessible and actionable evidence to improve availability and quality for all learners. Partnerships with these countries is in development.

“ It was indeed great working towards getting solutions for equitable quality education for all.”

Truphena Kirongo, Deputy Director of Education – Kenya

*speaking about a recent Accelerated Education Workshop in collaboration with Education.org
OVERVIEW OF EXPENSES

YEAR OF POST-PANDEMIC TRANSITION & GROWTH

Insights for Education accelerated project activities, transitioning from reopening analysis to its core mission of high-quality synthesis and use. This transition was fueled by strong investor support and new critical partnerships and team development.

Project Costs: 95%
- COVID-19 analysis & guidance
- Knowledge bridge white paper
- Synthesis process
- Design Blueprint
- Synthesis prototyping
- Country policy impact

Administration Costs: 5%
- General organisational support
- Currency loss
- One-off start-up costs

100% = CHF 1,667,963 FY 21-22
(vs. CHF 1,213,099 FY 20-21)

**Note:**
- **Project Specific Costs** are those costs that are required to meet objectives of specific projects, such as staff salaries, project travel, project training, external technical support or services, research, communications, and materials. These costs would not be incurred if the projects did not exist. **Project Shared Costs** are the portion of Shared Costs allocated to projects. Examples of such costs include occupancy and facilities, utilities, telephone/internet access, etc.
- **General Administration Costs** are costs for activities or services that support the organisation as a whole rather than any particular project. These are not costs associated with the delivery of projects; nonetheless, they are essential costs of maintaining and managing the organisation through which project objectives are achieved. Examples: fees for personnel relating to general administration and fundraising, finance and accounting support, human resources, bank fees, and board meetings. **Administration Shared Costs** are the portion of Shared Costs allocated to administration. Examples of such costs include occupancy and facilities, utilities, telephone/internet access, etc.
MANAGEMENT’S STATEMENT

The Board of Directors and executive management of Insights for Education have considered and adopted the annual report of Insights for Education for the financial year 01 July 2021 – 30 June 2022.

The annual report has been prepared in accordance with the provisions of the Swiss law. In our opinion, the financial statements give a true and fair view of the Foundation’s financial position on 30 June 2022, and of the Foundation’s activities and cash flows for the financial year 01 July 2021 – 30 June 2022.

We believe the management’s review includes a fair review of the development in the Foundation’s activities and finances, the result for the year and the financial position of the Foundation, as well as a review of the most significant risks and elements of uncertainty facing the Foundation.

AUDITOR’S REPORT

Report of the statutory auditor on the limited statutory examination
To the Board of Foundation of Insights for Education, Obreibden

As statutory auditor, we have examined the financial statements (balance sheet, income statement and notes) of Insights for Education for the business period from 1 July 2021 to 30 June 2022. These financial statements are the responsibility of the Board of Foundation. Our responsibility is to perform a limited statutory examination on these financial statements. We confirm that we meet the licensing and independence requirements as stipulated by Swiss law. An employee of our company assisted in the bookkeeping during the reporting year. This individual was not involved in the limited statutory examination.

We conducted our examination in accordance with the Swiss Standard on the Limited Statutory Examination. This standard requires that we plan and perform a limited statutory examination to identify material misstatements in the financial statements. A limited statutory examination consists primarily of inquiries of company personnel and analytical procedures as well as detailed tests of company documents as considered necessary in the circumstances. However, the testing of operational processes and the internal control system, as well as inquiries and further testing procedures to detect fraud or other legal violations, are not within the scope of this examination.

Based on our limited statutory examination, nothing has come to our attention that causes us to believe that the financial statements do not comply with Swiss law and the foundation deed and regulations.

Aarau, 22 August 2022

BDO Ltd

Paical Zünd
Licensed Audit Expert

Yves Hüsey
Auditor in Charge
Licensed Auditor
RESPONSIBILITY OF THE BOARD OF DIRECTORS AND EXECUTIVE MANAGEMENT FOR THE FINANCIAL STATEMENTS

The Board of Directors and executive management are responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in Switzerland; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors and executive management are responsible for assessing the Foundation’s ability to continue as a going concern; disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting in preparing the financial statements unless the Board of Directors and executive management either intends to liquidate the Foundation or to suspend operations or has no realistic alternative but to do so.

LIMITED STATUTORY AUDIT

The Foundation was audited in accordance to the Swiss standard of Limited Statutory Examination, since an Ordinary Examination is to be performed if two of the three following values are exceeded on average over the year in two consecutive financial years (Art. 727 para. 1 no. 2 and 727b para. 2 of the Swiss Code of Obligations in conjunction with Art. 83b para. 3 of the Swiss Civil Code): a balance sheet total of 20 million Swiss francs; a turnover of 40 million Swiss francs; 250 full-time positions on average over the year. Furthermore, the regulatory authority may require an Ordinary Examination if it seems to be necessary for a proper assessment of the financial situation of the Foundation.

TRANSLATION OF FOREIGN CURRENCY

Transactions in foreign currencies are translated into Swiss francs using the foreign exchange rates applicable on the transaction date. Monetary assets and liabilities in foreign currencies are translated into Swiss francs using the foreign exchange rates applicable on the balance sheet date. Realised and unrealised foreign exchange gains and losses are recognised in the income statement under financial income and expenses.
GENERAL INFORMATION
The financial statements are presented in Swiss francs. Unless otherwise stated, all values are to be understood in CHF.
The foundation was established as per 16 July 2019. The year of business presented in these financial statements encompasses the period from 01 July 2021 to 30 June 2022.

STATUTORY BASIS
The financial statements were prepared in accordance with the provisions of Swiss law, in particular the article on commercial bookkeeping and accounting of the Swiss Code of Obligations (Art. 957 to 962).

OPERATING INCOME AND EXPENSES
Expenses and income are recorded on an accrual basis. The changes in earmarked fund capital are disclosed in the notes.

TAXES
Insights for Education is domiciled in Switzerland and exempt from direct taxation by the Swiss federal government, the canton of Zurich and the municipality of Oberrieden owing to its exclusively charitable purpose.

DETAILS ON POSITIONS OF THE BALANCE SHEET

YEARLY AVERAGE OF FULL-TIME POSITIONS
Average number of full-time employees: less than 10.

LONG-TERM LEASE OBLIGATIONS
Residual amount of the liabilities from sale-like leasing transactions and other leasing obligations, unless these expire or may be terminated within twelve months after the balance sheet date: 17'600.00

EARMARKED FUND CAPITAL
Earmarked Fund Capital as per 1 July: 29’140
Inpayments, Chan Zuckerberg Initiative: 0
Use of fund for corresponding projects: 0
Earmarked Fund Capital as per 30 June 2022: 29’140

REQUIREMENTS FROM REGULATORY AUTHORITY
Currently there are no pending requirements from the regulatory authority.
