

Floor Plan + Concept + Mood Board

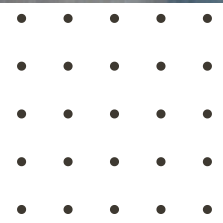

Concept: Located in Cocoa Beach Florida, The Breezeway hotel and its restaurant Driftwood Grill is a small-scale beach chic place to stay and eat. Sitting just 1 block north of the pier this hotel is conveniently located for anyone traveling to the area. Driftwood Grill is a great casual place to grab some surf and turf and enjoy the ocean view. This hotel has a minimalist feel with a touch of elegance. A very simple yet effective color scheme created a strong sense of cohesiveness throughout the hotel and restaurant. Strong wood accents were used to add warmth and coziness. A very lively and creative group of artwork and decor was also used throughout to create subtle but noticeable accents. Ceiling panels were used to create a fun wave look as well as absorb sound to create a quiet space.
