PENTA ESP Clampstick - External Rod with or without Universal Adapter

The Shotgun stick is the most universal tool used to hold, position, remove, install and operate with any tool or network equipment Insulating tubes on foam 1.25" (32mm) and operating rod $\frac{3}{8}$ " (10mm) in accordance with ASTM F711 and IEC60855-1 standard.

Clampsticks meet ASTM F1825 standard.

Available with or without universal ending, supplied with a coated suspension hook.

PENTA ESP Telescoping Stick

The unique curved pentagonal shape fits comfortably in hand, while remaining close to a cylindrical shape commonly used. This shape is used to transmit torque force during any operation requiring an action of tightening or loosening. Complies with ASTM F 1826 / IEC 61235 standards. The terminal tube is a round tube built on a rigid, waterproof polyurethane foam. The circular terminal tube's shape meets all requirements of the ASTM F711 / CEI60855-1 standards. The locking elements are self-searching when stick is deployed by sturdy bi-material button.

PPOL3/12H-PTA	12' Hot Stick Telescoping Pentagonal Shape - 3 Elements
PPOL4/16H-PTA	16' Hot Stick Telescoping Pentagonal Shape - 4 Elements

TELESCOPING DISCONNECTS

PENTA ESP Finger

Is used for opening and closing switches, opening and closing cutouts.

CMU

UFH

PENTA ESP Universal Fuse Holder

Is designed to safely remove or install overhead fuse tube barrels.

PENTA ESP Universal Shotgun (Clampstick) Adapter

Allows for any clampstick "Shotgun" to be converted to a universal head attachment. The adapter secures in the clampstick hook and head housing.

UCR

PPOL6/25H-PTA

PENTA ESP Portable Loadbreak Tool

Is designed with the lineman in mind. It is used in operation of disconnects, load break switches, capacitor banks, fuse limiters, power fuses and cutouts. It is simple to use and allows for exceptional control to reduce operator fatigue. The PENTA ESP Load Break Tool is equipped with a reset handle, which allows full tool reset without glove removal. It will help to cut installation and operation costs and will eliminate the need of load interrupters on each device. The procedures for switching are designed to reduce complications and to minimize the duration and scope of outages. The PENTA ESP Load Break Tools comply with OSHA 29 CFR Part 1910.269 (published JAN 1994) – “Devices used to open circuits under load Conditions shall be designed to interrupt the current involved”.

LBT2538C	Voltage Nominal 25 / 34.5 kV - Maximum 38kV Amperage Nominal 600A - Maximum 900A"

LBT1427C

PENTA ESP Mechanical Crimping Tool / Pop Tool

This mechanical crimping tool is designed for crimping a wide range of overhead service entrance connections, overhead splices, and overhead taps. It's easy-to-use, and has handles that provide a solid grip, good leverage and better durability, a low friction-impregnated bushings at the pivot joints, and it is assured with an over-center cam mechanism. Tool can easily be checked visually for proper adjustment and can be adjusted with Allen wrenches. Die Available (BG-k840)

STRIPPING

PG2MV/2020

PENTA ESP Stripping Pliers for Outer Jacket

The outer jacket removal pliers are pliers that cut both a circular and longitudinal cut around a cable to complete all cuts necessary in order to remove the outer jacket. Cutting blades are customizable for any depth.

PG2MV/2020	Stripping Pliers for Outer Jacket, Cutting Depth 0.8" & 0.8"
PG3MB/1018	Stripping Pliers for Outer Jacket w/ Handle Lock, Cutting Depth 0.04" & 0.07"
PG3MB/2833	Stripping Pliers for Outer Jacket w/ Handle Lock, Cutting Depth 0.11" & 0.13"
PG3MV/1018	Stripping Pliers for Outer Jacket, Cutting Depth 0.04" & 0.07"
PG3MV/2833	Stripping Pliers for Outer Jacket, Cutting Depth 0.11" & .13"
PG4MV/2833	Stripping Pliers for Outer Jacket, Cutting Depth 0.11" & .13"

PG3MV/1018

PENTA ESP Pliers For PiLC Cable

Enables the user to perform a circular cut into phases of MV cable with impregnated paper insulation in order to remove the paper.

PINTEL4PI/465	Cables from 0 - 10 to 26 mm. Penetration in circular cut : 4,65 mm.
----------------------	---

PENTA ESP Pliers For Lead Sheath Cables

Enables the user to perform a circular and longitudinal cut on LV or MV lead sheath cables. These tools guarantee the lead sheath removal without damaging insulation.

AGPB3	Cables from 0 - 26 to 52 mm.
AGPB4	Cables from 0 - 47 to 75 mm.

PINTEL4PI/465

AGPB3

PENTA ESP Semi-Con lifter

Use it to lift your scored semi-con without the use of a plier.

DSP	Semi-Con lifter

PENTA ESP Electric Voltage Detectors

These voltage detectors are designed for “proving dead”, making sure that nominal voltage is actually absent on a circuit in an HV distribution system between 1 kV and 69 kV (no-voltage verification): Comes in a storage bag or metal case.

- The device detects any nominal voltage in a system or station.
- It makes it possible to avoid detecting induced voltages in order to allow earthing operations.
- The visual indication is visible in all usual working environments, in sunlight or fog, with a wide angle of visibility and from the side thanks to an optic ring.
- The 100 dB sound signal is designed to remain audible even in traffic or strong wind, thanks to its acoustic “horn”.

Direct access to the battery and sealed electronics compartment. When the battery is replaced, this design prevents the following.

- Accidental interchange of housing or circuitry;
- Damage to electronic circuits;
- Humidity ingress into the device when the battery is replaced outdoors.

Range customizable from 1 to 69kV:

MVD1-GNG-C0425XHUC-PTA

Medium Voltage Detector 1 Range 04 to 25 kV

MVD1-GNG-C2560XHUC-PTA

Medium Voltage Detector 1 Range 25 to 60kV

MVDDR1-GNG-C0469XHUC-PTA

Medium Voltage Detector Dual Range 4 to 23kV & 34 to 69kV

MVDDR1-GNG-C0434XHUC-PTA

Medium Voltage Detector Dual Range 4 to 13kV & 13 to 34kV

MVDDR1-GNG-C0435XHUC-PTA

Medium Voltage Detector Dual Range 4kV & 13 to 35kV

MVD1-GNG-C0412XHUC-PTA

Range customizable from 1 to 69kV

PENTA ESP Electric Voltage Detectors

These voltage detectors are designed for “proving dead”, making sure that nominal voltage is actually absent on a circuit in an HV transmission system between 50 kV and 765 kV (no-voltage verification): The device will detect any nominal voltage on over head lines and stations. It will avoid detecting most induced voltages in order to allow grounding operations. Optimised indication that can be understood clearly in all working conditions:

- The visual indication is visible in all usual working environments, in sunlight or fog, with a wide angle of visibility and from the side thanks to an optic ring.
- The 100 dB sound signal is designed to remain audible even in traffic or strong wind, thanks to its acoustic “horn”.

Direct access to the battery and sealed electronics compartment. When the battery is replaced, this design prevents the following:

- Accidental interchange of housing or circuitry;
- Damage to electronic circuits;
- Humidity ingress into the device when the battery is replaced outdoors.

HVD1-GNG-C060220XHUC-PTA

HVD1 High Voltage Detector 60 to 220kV

HVD1-GNG-C220500XHUC-PTA

HVD1 High Voltage Detector 220 to 500 kV

HVD1-GNG-C069230XHUC-PTA

HVD1 High Voltage Detector 69 to 230 kV

ADVECU

Replaceable Adaptor For Different Sticks End Fitting

ADVECUCR

Replaceable Adaptor For Different Sticks End Fitting

ADVECU

ADVECUCR

HVD1-GNG-C060220XHUC-PTA

Range customizable from 50 to 500 kV

PENTA ESP Aladin Individual Voltage Alarm With Headlamp

ALADIN is designed to provide extra safety level for workers operating near energized equipment (during maintenance, rescue operations, painting, pruning) in electrical environment. This device combines a head light and a personal voltage alarm.

ALADINCEFC-PTA

Individual Voltage Alarm with Headlamp - 1 to 500kV

ALADINCEFC-PTA

SEQUENCE INDICATOR

PENTA ESP Phase rotation indicator

Testing the phase rotation on LV three phase system.

Device designed for field use:

- Heavy-duty waterproof housing
- Can be used in all weathers
- Supplied in a soft case
- Other markings or colors to demand.

DR706-PTA

DR706-PTA

Phase rotation indicator
