

1 Device and controls

1. sleepace sleep tracker
2. Power Adapter
3. Charging Cable
4. Instruction Manual

2 Power on and power off

Snap the magnetic cover onto the controller. (Same Logo Direction)

Plug the USB cable into the controller and connect the power adapter to the socket.

Power On	When the device is connected to power, make sure the switch is ON and the indicator light will be on
Power Off	Press the switch into OFF

The sleep tracker needs to be positioned correctly between mattress and sheet in order to function properly.

3 Position the Sleep Tracker

- 1 Remove the magnetic cover
- 2 Put the piezo strap between mattress and sheet as Shown approximately at the height of your chest. The Housing will be fixed on the side of the bed (on the sheet). Plug the USB cable into the controller and connect the power adapter to the socket, Then press the switch to make sure the light is on.
- 3 Replace the magnetic cover in that way, that the device is in that way, that the device is in active mode. Therefore Turn the magnetic cover by 180 accordingly (the green LED will light up shortly).
- 4 Lay down in your bed.
