

FLORIDA LIFE SCIENCE STANDARDS

Florida Standard	Primary Video Matches	Secondary / Possible Matches	Justification
<b>SC.4.L.17.1</b> Adaptations	<a href="#">Storm on Saturn</a>	<a href="#">Power of the Planets</a>	Extreme planetary environments support adaptation discussions.
<b>SC.6.L.14.1–14.3</b> Cell structure & organization	<a href="#">Macromolecules</a>	<a href="#">What Makes You Move</a> <a href="#">Carbon Cycle</a>	Molecular basis of cells and tissues.
<b>SC.6.L.14.4–14.5</b> Human body systems	<a href="#">What Makes You Move</a>	<a href="#">Macromolecules</a>	Muscular, skeletal, nervous system interactions.
<b>SC.6.L.15.1</b> Classification	<a href="#">Linnaean Classification</a>	<a href="#">Macromolecules</a>	Differences among kingdoms.
<b>SC.7.L.18.1–18.3</b> Photosynthesis, respiration, carbon cycle	<a href="#">Carbon Cycle</a>	<a href="#">Macromolecules</a> <a href="#">What Makes You Move</a>	Matter cycling and energy transfer.
<b>SC.8.L.18.1–18.4</b> Macromolecules	<a href="#">Macromolecules</a>	<a href="#">Carbon Cycle</a> <a href="#">What Makes You Move</a>	Structure and function of biomolecules.
