#### BioProtect RTU

## SECTION 1: Identification of the substance/mixture and of the supplier

Product name: BioProtectRTU

Manufacturer/Supplier Trade name:

Manufacturer/Supplier Article number: BioProtectRTU

Recommended uses of the product and uses restrictions on use:

Manufacturer Details:

ViaClean Technologies, LLC. 230 S Broad Street, Suite 1201 Philadelphia PA, 19102 877-447-5956

Emergency telephone number:

Infotrae 800-535-5053

## SECTION 2 : Hazards identification

## Classification of the substance or mixture:

Not classified for physical or health hazards under GHS.

#### Hazard statements:

## Precautionary statements:

If medical advice is needed, have product container or label at hand Read label before use

### OtherNon-GHSClassification:

# WHMIS NFPA/HMIS

HMIS RATINGS (0-4)

## **SECTION 3: Composition/information on ingredients**

Ingredients:		
CAS 27668-52-6	3-(Trihydroxysilyl) propyldimenhyloctadecyl ammonium chloride	<1 %
	Percentages are	by weight

according to 29CFR1910/1200 and GHS Rev. 3

**Effective date**: 10.24.2014 Page 2 of 6

#### **BioProtect RTU**

### **SECTION 4 : First aid measures**

### Description of first aid measures

**After inhalation:** Loosen clothing as necessary and position individual in a comfortable position. Move exposed to fresh air. Give artificial respiration if necessary. If breathing is difficult give oxygen. Get medical assistance if cough or other symptoms appear.

**After skin contact:** Rinse/flush exposed skingently using soap and water for 15-20 minutes. Seek medical advice if discomfortorirritation persists.

**After eye contact:** Protect unexposed eye. Rinse/flush exposed eye(s) gently using water for 15-20 minutes. Remove contact lens(es) if able to do so during rinsing. Seek medical attention if irritation persists or if concerned.

**After swallowing:** Rinse mouth thoroughly. Do not induce vomiting. Seek medical attention if irritation, discomfort, or vomiting persists. Never give anything by mouth to an unconscious person.

## Most important symptoms and effects, both acute and delayed:

Irritation, headache, nausea, shortness of breath.

### Indication of any immediate medical attention and special treatmentneeded:

If seeking medicalattention provide SDS document to physician. Physician should treat symptomatically.

### SECTION 5 : Firefighting measures

### Extinguishingmedia

**Suitable extinguishing agents:** Use water, dry chemical, chemical foam, carbon dioxide, or alcohol-resistant foam.

### For safety reasons unsuitable extinguishing agents:

### Special hazards arising from the substance ormixture:

Thermal decomposition can lead to release of irritating gases and vapors.

### Advice for firefighters:

**Protective equipment:** Wear protective eyeware, gloves, and clothing. Refer to Section 8.Use NIOSH-approved respiratory protection/breathing apparatus.

**Additional information (precautions):** Avoid inhaling gases, fumes, dust, mist, vapor, and aerosols. Avoid contact with skin, eyes, and clothing.

## SECTION 6: Accidental release measures

### Personal precautions, protective equipment and emergency procedures:

Ensure adequate ventilation. Ensure that air-handling systems are operational.

#### **Environmental precautions:**

Should not be released into environment. Prevent from reaching drains, sewer, or waterway.

# Methods and material for containment and cleaning up:

Wear protective eyeware, gloves, and clothing. Refer to Section 8.Always obey local regulations. Containerize for disposal. Refer to Section 13.If necessary use trained response staff or contractor. Evacuate personnel to safe areas. Keep in suitable closed containers for disposal.

## Reference to other sections:

## SECTION 7: Handling and storage

## Precautions for safe handling:

Avoid contact with skin, eyes, and clothing. Follow good hygiene procedures when handling chemical materials. Refer to Section 8.Follow proper disposal methods. Refer to Section 13.Do not eat, drink, smoke, or use personal products when handling chemical substances.

according to 29CFR1910/1200 and GHS Rev. 3

**Effective date**: 10.24.2014 Page 3 of 6

#### **BioProtect RTU**

### Conditions for safe storage, including any incompatibilities:

Store in a cool location. Keep away from food and beverages. Protect from freezing and physical

damage. Provide ventilation for containers. Keep container tightly sealed. Store away from incompatible materials.

## SECTION 8 : Exposure controls/personal protection

**Control Parameters:** No applicable occupational exposure limits

Appropriate Engineering controls: Emergency eye wash fountains and safety showers should be available in

the immediate vicinity of use or handling. Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapor and mists below the applicable workplace exposure limits (Occupational

Exposure Limits-OELs) indicated above.

**Respiratory protection:** Not required under normal conditions of use. Where risk assessment

shows air-purifying respirators are appropriate use a full-face particle respirator type N100 (US) or type P3 (EN 143) respirator cartridges as a backup to engineering controls. When necessary use NIOSH approved

breathing equipment.

**Protection of skin:** Select glove material impermeable and resistant to the substance .Select

glove material based on rates of diffusion and degradation. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Use proper glove removal technique without touching outer surface. Avoid skin contact with used gloves. Wear

protective clothing.

**Eye protection:** Wear equipment for eye protection tested and approved under

appropriate government standards such as NIOSH (US) or EN 166(EU). Safety glasses or goggles are appropriate eye protection.

**General hygienicmeasures:** Perform routine housekeeping. Wash hands before breaks and at the end

of work. Avoid contact with skin, eyes, and clothing. Before wearing wash

contaminated clothing.

## SECTION 9: Physical and chemical properties

Appearance (physical	Clear, colorless liquid	Explosion limit lower: Explosion limit upper:	Not determined Not determined
Odor:	Mild	Vapor pressure:	Not determined
Odor threshold:	Not determined	Vapor density:	Not determined
pH-value:	Approx. 5.0	Relative density:	1.003
Melting/Freezing point:	Not determined	Solubilities:	Material is water soluble.
Boiling point/Boiling range:	Above 210F	Partition coefficient (n- octanol/water):	Not determined
Flash point (closed cup):	Not determined	Auto/Self-ignition temperature:	Not determined

according to 29CFR1910/1200 and GHS Rev. 3

Effective date: 10.24.2014 Page 4 of 6

BioProtect RTU					
Evaporation rate:	Not determined	Decompositio n temperature:	Not determined		
Flammability (solid,gaseous)	Not determined	Viscosity:	a. Kinematic:Not determined b. Dynamic: Not determined		
Density: Not determined					

## SECTION 10: Stability and reactivity

**Reactivity:** Nonreactiveundernormal conditions. **Chemical stability:** Stable under normal conditions.

Possible hazardous reactions: None under normal processing.

Conditions to avoid: Incompatible materials. Do not mix with cleaners, do not freeze, and avoid heat.

Incompatible materials: Sodium oxidizers Hazardousdecompositionproducts:

# SECTION 11: Toxicological information

Acute Toxicity: No additional information.				
Chronic Toxicity: No additional information.				
Corrosion Irritation: No additional information.				
Sensitization:	No additional information.			
Single Target Organ (STOT):	No additional information.			
Numerical Measures:	No additional information.			
Carcinogenicity:	No additional information.			
Mutagenicity:	No additional information.			
Reproductive Toxicity:	No additional information.			

# SECTION 12 : Ecological information

**Ecotoxicity Persistence anddegradability:** 

Bioaccumulative potential:

Mobility in soil:

Other adverse effects:

## **SECTION 13: Disposal considerations**

### Waste disposalrecommendations:

Contact a licensed professional waste disposal service to dispose of this material Dispose of empty containers as unused product. Product or containers must not be disposed with household garbage. It is the responsibility of the waste generator to properly characterize all waste materials according to applicable regulatory entities (US 40CFR262.11). Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. Chemical waste generators must also consult local, regional, and national hazardous waste regulations. Ensure complete and accurate classification.

## SECTION 14 : Transport information

according to 29CFR1910/1200 and GHS Rev. 3

**Effective date**: 10.24.2014 Page 5 of 6

#### **BioProtect RTU**

### **UN-Number**

Not Regulated.
