

**Did you  
know**

**Google Gemini – the  
conversational AI –  
has a secret weapon:  
Extensions. ✨**

# Extensions give Gemini access to information and functionality from apps like:

- **Google Maps:** Find places, get directions and explore your surroundings
- **Gmail:** Summarise emails or pull out important dates from your inbox
- **Google Docs:** Write, edit and get summaries of your documents
- **YouTube:** Find relevant videos related to your questions

# How to use Google Gemini Extensions?

## 1. Go to settings

Open the Gemini app and access the settings menu

## 2. Find Extensions\*

Locate the “Extensions” section within the settings

## 3. Toggle extensions

Turn the ones you want to use on or off

## 4. Start a chat

Ask a question and Gemini will use the relevant extension to give you a better response

*\*Extensions are only available with a personal Google Account, you can't access them on a Google Workspace for business, school or organisations.*

# Personalised answers with location data

- **Examples:**
  - “Where’s a good coffee shop near me?”
  - “What are some kid-friendly activities I can do nearby?”
- **Notes:** Location sharing is optional and enhances functionality

# The YouTube Extension

- **Find and suggest:** Gemini searches YouTube for videos relevant to your questions
- **Summarise videos:** Get quick summaries of videos
- **Answer questions:** Pull specific details from videos
- **Translate videos:** Translate video content to your preferred language

# Flights and hotels: Gemini the travel agent ✈️

- **Flights:** Search and book flights
- **Hotels:** Recommend hotels and narrow options by price, accommodation type, etc.
- **Maps integration:** Get directions and explore local attractions

# Google Workspace Extension: Your AI assistant

- **Gmail:** Summarise and find emails quickly
- **Google Drive integration:** Locate and understand document contents
- **Generate content:** Help create marketing copy based on existing documents

**Google Gemini's  
Extensions offer a  
glimpse into the future  
of conversational AI.  
Take time to experiment  
and see how Gemini can  
streamline your daily  
tasks and information  
searches. 🚀**

**Imagine**

**Better.**
