

**Did you
know**

**OpenAI is
launching
Search GPT. 🌟**

**This new search
engine will be
ad-free and
instead...**

**will rely on securing
content partnerships
with publishers to
drive revenue and
support content
creation.** 🤝

**But will Search GPT
include results from
the broad web or
only from publishers
they've dealt with?
Only time will tell. 🕵️**

With the potential integration into Chat GPT and Apple Intelligence, Search GPT could become *the* search engine brands want to be in. 📈

**Imagine
Better.**
