

**Did you  
know**

**Google just made  
searching on  
your phone way  
easier!**

**In January 2024  
Google  
announced **Circle**  
**to Search** for  
some Android  
phones**

**Circle, highlight,  
scribble, or  
simply tap any  
image, video or  
text on your  
Android phone  
and...**

**the AI  
contextually  
understands  
your intent and  
responds...**

**with:**

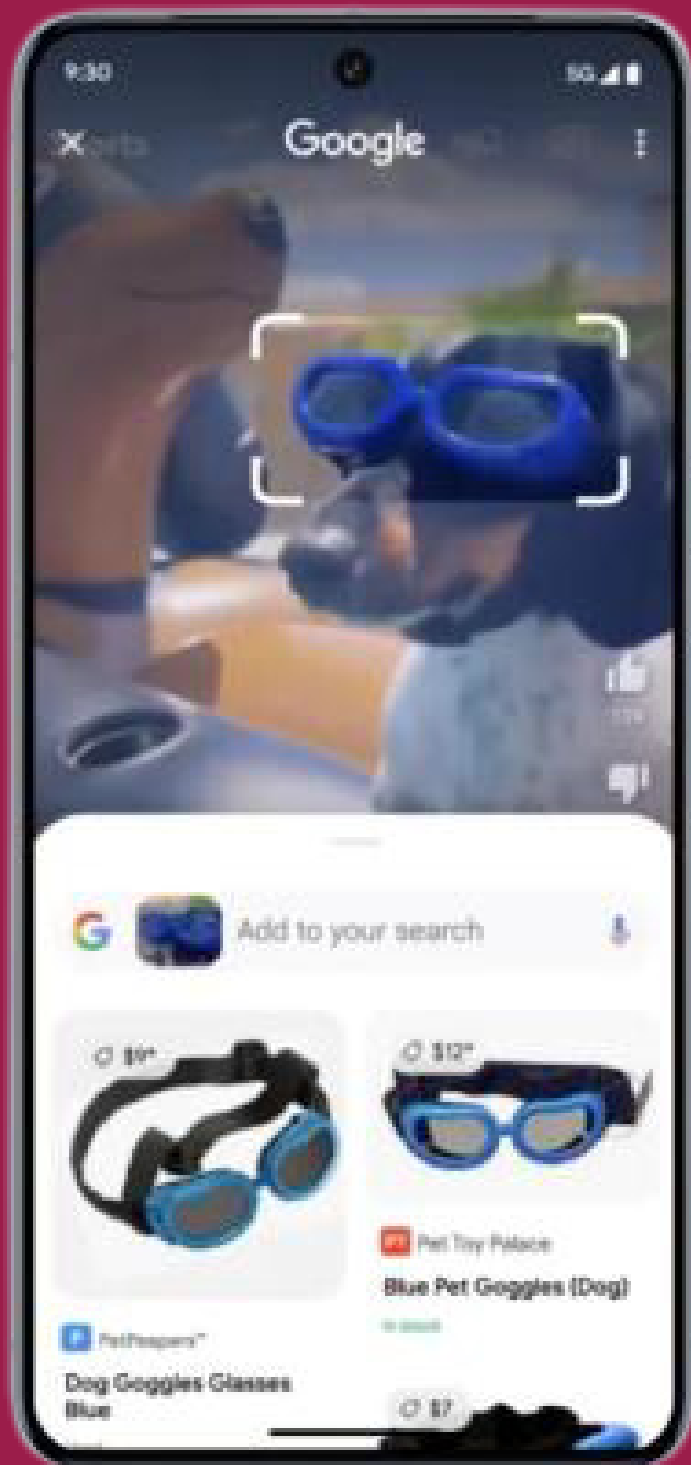

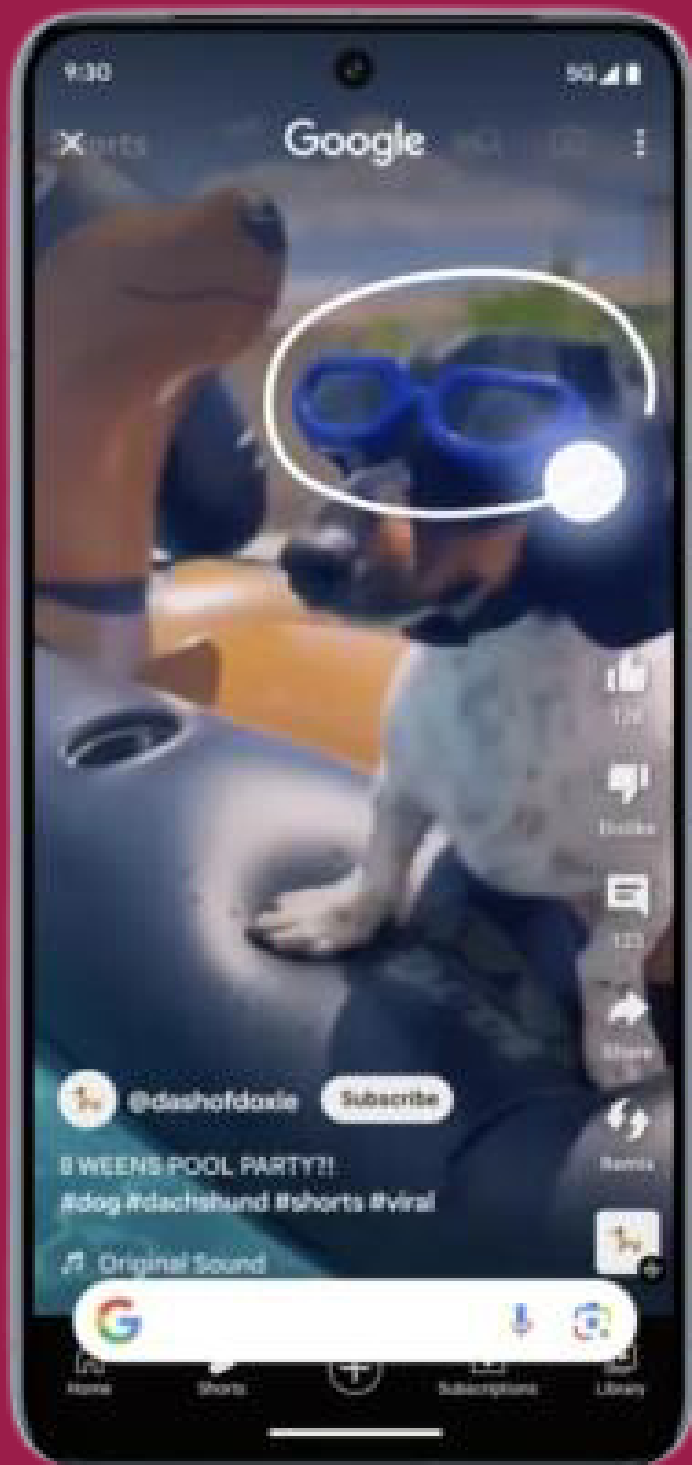

- **shopping options**
- **information**
- **answers**

**depending on  
what is 'circled'  
and the context**

**You don't have  
to leave the app  
and switch over  
to an internet  
browser**

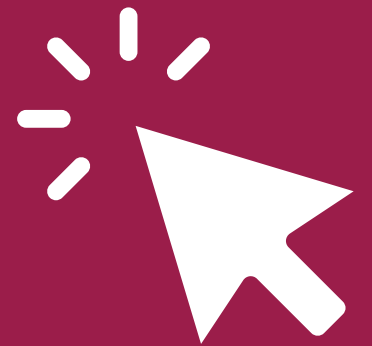

**(Credit: Google)**

**Great for  
shopping or  
finding out  
more about  
what you see**

**Imagine**

**Better.**
