Received in AUG 2022 IWG Meeting to Carve for Kids

Original article uses stock that is 7 1/2"H X 3"W X 2" thick, but these versions are reduced in size to allow more volume of carvings, intended for event hand-outs for kids:

Recommended 1" flat stock, but can use anything from 1/2" to 2"; carve 1 or 2 sides; dual relief carving

Reduced 75% to allow for faster/easier carving; allowing for more kids and handouts
