

Childcare Resources for TenderCare Families

As our families begin planning for care after TenderCare's closure, I want to provide as many resources as I can to help with this transition. I have personally contacted several childcare providers in the Lewis-Clark Valley, and I am incredibly appreciative of their willingness to help our families.

My hope is simply to give families a place to start. Every family's childcare needs are different, and I encourage you to choose the program that is the best fit for your child and your family.

Providers I Have Personally Contacted:

I have personally spoken with the following childcare providers regarding TenderCare's closure. They have indicated that they anticipate having availability and are willing to work with TenderCare families seeking care.

These providers understand our planned September 30 closure timeline and are preparing for additional staffing and enrollment needs with the goal of welcoming transitioning TenderCare children beginning October 1.

Availability will vary based on your child's age, schedule, and each program's capacity. Families should contact providers directly to discuss their individual childcare needs and enrollment.
