## SO WHY PLAY FOOTBALL?

Simply put, young female football players are pioneers, taking advantage of the opportunity to play a sport that was once closed off to them. They show the world that anything is possible with hard work, dedication and an unwavering commitment to accomplishing whatever one sets their mind to.

We have no doubt that what begins on the football field can, and will, have a long lasting impact in the lives of its participants and in the community at large.

The future of football is bright because the future of football includes strong and empowered young ladies like you!

**The Manitoba Girls Football Association (MGFA)** is the first female tackle program of its kind in Western Canada. It is dedicated to developing and fostering opportunities for girls to play football against girls. We are not competition for minor football in Manitoba, our leagues are played in the spring, this allows girls learn how to play, hone their skills and compete against each other, and if they so choose to compete in the youth leagues in the fall.

It is a stand alone program that allows the girls that only want to play against other girls to do so, and still allows the girls that wish to play fall football to do so as well.
