Risk Assessment Policy

We make York House Childcare a safe and secure place for children, parents and staff by assessing and minimising hazards and risks in order to ensure the children at the setting thrive in a safe environment.

We appreciate that children need some level of risk in their activities in enable them to continue to develop but these risks are assessed to ensure that any risks are appropriate to the age and stage of development of the children at the setting.

We completed a thorough risk assessment twice a year of the premises to address and review any potential safety issues for all indoor and outdoor areas used for childminding purposes.

In addition to this a daily visual check is completed to ensure that the house and garden are a safe environment to play in and that equipment is clean and safe for the children to use.
