

Instruction on how to order your printing service

Welcome to your Poster Session Guide! This concise overview walks you through everything you need to know—from preparing an A0-sized portrait poster and choosing a local printer, to locating your session board, presenting during your allotted slot, and promptly taking down your display afterward. Note that it's authors' full responsibility to manage their poster printing matters. Our volunteers can ONLY help for collecting the printed posters from the specified local printing shops after you clearly informed them. If you are attending the conference remotely, our volunteers can further help to stick your posters to the posterboard during your allocated poster sessions. Again, you need to inform our volunteers of this clearly. Following are the simple steps to ensure a smooth and successful poster printing experience!

Task 1: Choose a printing service. On the conference website, we have listed four printing services: <https://www2025.thewebconf.org/poster-session>. Because the two printing shops "Snap Print Solutions" and "ASAP Press" are more convenient, our volunteers will ONLY help to collect the posters from these two shops. If you choose to use other printing services (whether it is listed on the conference website or not), our volunteers will NOT help to collect your posters. The following instructions are made for the use of "Snap Print Solutions" and "ASAP Press". If you can make payment via Alipay (支付宝), you can choose "ASAP Press". Please go to Task 14 directly for this option. Otherwise, the following steps will show you how to use "Snap Print Solutions" with other payment options. Where available, please follow printing shops' instructions directly.

Please note that to avoid issues caused by poor poster quality, please ensure that the DPI should be greater than 350, and supply a print-ready PDF file with 5mm trim marks and bleed. As it takes time for the printing services to print your job, it's necessary to allow enough time for them to complete the printing job. We encourage you to place the order at least two days before your poster sessions to avoid any delay and allow our volunteers to collect the posters.
