

Hydronic Specialties

Water Heaters	AEHS: Electric tankless water heaters and boilers, including boiler boards. AEHS
Hydronic Boilers	U.S. Boiler (Burnham): Residential, light commercial hydronic heating boilers. Firetube and water tube boilers that are quiet and feature the intuitive Sage control system. usboiler.net
Combi Boilers	Alta combi: The world's FIRST & ONLY 10:1, gas-adaptive (self-tuning), combi boiler! usboiler.net
Mixing/Tempering Valves	Paxton: 3/4" to 3" stainless steel valves for commercial applications. paxtoncorp.com
Hydronic Accessories	Elbi of America: Residential and commercial expansion tanks, commercial hydronic accessories, and Commercial Storage tanks.. ASME Electric Tank 3 phase water heaters. elbi.net Miljoco: Temperature and pressure gauges. miljoco.com Flamco: High-capacity air and dirt eliminators and vents, hydraulic separators, expansion tank brackets, pressure reducing valves. Flamco Boiler Buddy: Buffer tank. Hot water products
Circulators, Pumps,	AquaMotion: Super efficient, eco-friendly, pumps, circulators & recirculation systems. Very easy to install and maintain. aquamotionhvac.com
Heat Exchanger	SWEP: Brazed plate heat exchangers, single and double wall options. swep.net
Radiant Heating	Thermalboard: 5/8" tall composite plywood radiant floor with aluminum heat transfer, grooved out to 8" on center, using 3/8" tubing. thermalboard.info
Radiant Insulation	NOFP: Easy-to-install flexible foam insulation for hydronic radiant systems. nofp.com rFoil: Easy to install roll out reflective radiant insulating material. rfoil.com
Fan Convectors	Smith Environmental: Kickspace, wall units, hot water fan convectors. Smith Environmental
Radiators	Smith Environmental: Panel Radiators combine the comfort of radiant heat with an elegant contemporary design. Smith Environmental Embassy: Cost competitive residential baseboard. embassyind.com

Controls

Controls	HBX Control Systems: WiFi thermostats. Whole house control, boiler staging control, radiant floor and heat pump controls. BTU and flow metres with WiFi. HBX control systems Loxone: Home automation and building management systems. Widely used globally since 2009, it can control everything; HVAC, lighting, sound, and alarms with state of the art and future technologies for today's home or commercial building. They have 600 certified installers in the USA. Loxone
-----------------	---

Plumbing

Recirc Systems	AquaMotion: Super efficient, eco-friendly, pumps, circulators & recirculation systems. Very easy to install and maintain. aquamotionhvac.com
Electric Water Heater	Vaughn: Engineered residential, commercial, Industrial tank type and instantaneous water heaters. vaughn.com
Steam To Water Generators	Vaughn: Semi-instantaneous steam fired ASME water heater utilizes steam for heating potable water in heavy duty commercial applications without storage tank. vaughn.com
Pressure Booster Systems	Canariis: A wide range of domestic water pressure booster systems. canariis.com
Tempering Valves	Paxton: 3/4" to 3" stainless steel valves for commercial applications. paxtoncorp.com

Heat Pumps and Air Handlers

Heat Pumps	RBI HP-275: Inverter Commercial air-to-water heat pump for space conditioning and domestic hot water. Stocked at the factory, competitive pricing. RBI water heaters ESP: Hi-Velocity and Lo-Velocity air handlers. hi-velocity.com
-------------------	--

Solar Hot Water

Note: JTG/Muir can include all necessary solar specialties to make a complete solar hot water system. This includes controls, drain back tanks and pumps.	AET: Solar thermal systems. Flat Plate solar thermal collectors, CSI approved for residential DHW systems low income housing rebates. AETsolar.com
--	---

Water Treatment Chemicals

Water Treatment	Sentinel: Hydronic non-toxic chemicals, cleaners and closed loop conditioners. Propylene Glycol anti-freeze. Sentinel JJM: Condensate neutralizers, residential and Commercial. jjmboilerworks.com GTP: Residential hydronic feeder systems. gtpcompany.com
