Concrete Leveling in Carports

Dear Owners,

On **Tuesday October 1st**, we will be continuing the carport leveling that was started last October.

The carports in buildings 1801 and 1803 need to have cars and jet skis removed so that concrete leveling can be performed.

After the work is completed, no vehicles are to go back into carports for 48 hours.

Thank you for your cooperation,

Board of Directors
Shores of Port Clinton
