

Capability Statement

COMPANY DATA

- CAGE: 871N3
- Federal ID (EIN): 83-0786938
- Socio-Economic Certifications: (SwaM, SDVOB, MBE)
- Industry Certifications: (ISO, CCNA, SEC+, CISSP, SRUM, SAFe, AWS Cloud)
- NAICS Codes: 54152, 541511, 541513, 541690, 611420, 423430
- Contract Vehicles: Multi-State, GSA

NETWORK PROTECTION

At We provide robust network protection through multi-layered security architectures, including next-generation firewalls, intrusion detection and prevention systems (IDPS), and continuous threat monitoring aligned with NIST and ISO/IEC

PAST PERFORMANCE

Our firm has a proven track record of delivering high-impact IT solutions and consulting services to some of the nation's most mission-critical government entities, including the Department of the Army, Office of Inspector General, State of Virginia, U.S. Postal Service, and the Department of Defense (DoD). Across these engagements, we have successfully executed large-scale infrastructure modernization efforts, cybersecurity assessments, enterprise system integrations, and compliance-driven initiatives. Our work has consistently met or exceeded performance benchmarks for timeliness, quality, and budget adherence. By leveraging our deep understanding of federal and state regulatory environments and operational mandates, we have helped these organizations strengthen their IT posture, improve service delivery, and achieve measurable outcomes aligned with their strategic objectives..

CAPABILITIES

Our company delivers a robust suite of IT consulting and project delivery capabilities designed to support public sector modernization initiatives and enterprise transformation. With over 20 years of experience, we specialize in IT systems analysis, infrastructure modernization, enterprise architecture, and cybersecurity. We provide organizations with strategic roadmaps and feasibility studies. These roadmaps include detailed project phasing, cost-benefit analyses, risk assessments, and compliance implications. We also provide comprehensive policy development, covering incident response, data classification, and mobile device management, ensuring that each engagement is technically sound and regulatory compliant.

DIFFERENTIATORS

- End-to-End Strategic and Technical Integration
- Deep Public Sector Experience with Regulatory Expertise
- Advanced Tool Ecosystem and Data-Driven Decision-Making

Our team brings over two decades of focused experience in the public sector, with demonstrated proficiency in aligning IT initiatives to compliance standards like CJIS, HIPAA, and NIST 800-53

TECHNICAL SUPPORT

We deliver Technical Support from our team of IT professionals to ensure system stability, user satisfaction, and operational continuity.

ZERO DOWNTIME

We proactively mitigate downtime by implementing resilient system architectures, conducting rigorous testing and failover validation.

TURNKEY SOLUTIONS

We provide comprehensive IT consulting solutions that encompass infrastructure analysis, cybersecurity enhancement, cloud adoption, and enterprise system modernization.

Service Features and Benefits

Our service offerings are designed to deliver comprehensive, enterprise-grade IT solutions that drive operational efficiency, enhance security, and align technology investments with long-term strategic goals. We provide specialized support in areas such as infrastructure modernization, cloud adoption, cybersecurity posture enhancement, and data governance.

The benefits of our services extend beyond technical implementation to deliver measurable, organization-wide impact. Clients gain increased resilience against cyber threats, reduced technical debt, and improved service continuity through resilient architecture design and robust business continuity planning..

* With deep public sector experience and a commitment to compliance standards such as NIST, CJIS, PCI, and ISO/IEC 27001

System Requirements

- **Comprehensive IT Infrastructure Assessments and Strategic Roadmapping**
- **Cybersecurity Risk Management and Compliance Alignment**
- **Cloud Readiness and Migration Strategy**
- **Project Management and Independent Oversight (IV&V)**
- **Data Integration and Governance Solutions**
