

Fall 2020 Safety Precautions

At Peekaboo we have always considered the health and safety of your students and staff a top priority. Our picture day has always included, frequent disinfectant wipe downs, regular use of hand sanitizer, single-use combs/bobby pins, and sensitive baby wipes to clean up those tiny little faces.

In the wake of the global pandemic, we have developed additional precautionary measures based on our industry's best practices and the most recent CDC guidelines. These include:

- Facemasks on all Peekaboo staff
- Social/physical distance between our staff and your students
- Disinfectant sanitization between students
- No-touch posing and photography
- Contactless online ordering and delivery

Picture day is an important time, and we want to offer a memorable and safe experience for you, the kids, and their families – just like it has always been.
