

What Is On My Ballot?

Empowering Voters Nationwide

Voter Turnout-Improving APP Officially Launched

Available Today!

The **What Is On My Ballot APP** is finally here! For the upcoming elections on November 4th, 2025, founder Akash Vukoti built a web app that lets Texan voters view our simplified descriptions of the 17 State Constitutional Propositions up for election! The app also lets users create a personalized voting plan with *For* or *Against* answers that is emailed to them so it will be handy to use on Election Day! The app is currently available to use right now at app.whatisonmyballot.com/app!

Features

The app contains the ability to view our previous simplified descriptions of two 2025 elections: the Mayoral Election in San Angelo this past May, and the upcoming State Constitutional Amendments in November. The State Constitutional Amendments display page contains the official ballot language of each amendment, our simplified descriptions, and links to the Texas State Government's website so you can review the original text, sponsors, and voting history of each legislation.

Additionally, the app has its customized voting plan creation system! This system provides users with the option to decide how they would like to vote on each proposition, before sending that list to their email! This allows voters across Texas to head to the polling station confident and fully prepared!

Get Involved!

Our plans for the coming elections are only getting bigger and better! Join our team at WhatIsOnMyBallot.org.
