OUR AGRI SHOW VISION

Rythubadi aim to create more awareness on the latest agricultural updates to the farmers. We believe Agri inputs, new methods, real experiences, products, services & latest technologies that would drive agriculture to bright future. So, we are focused on this since last 5 years. Educating farmers through our Digital Media platforms till now. So far we have collected the experiences of farmers at the field level by visiting many areas. Added to fellow farmers. More than 27 lakh farmers are following our work.

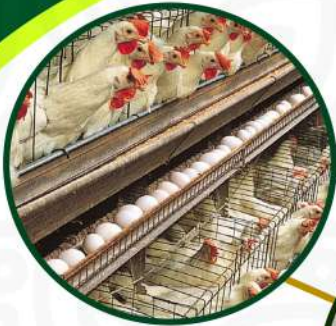

Our aim is to introduce new agriculture to the farmers who are not yet able to use digital media and internet. That is why we are organizing these agricultural exhibitions. We are working near the rural areas so that it is accessible to most of the farmers. We are working with the aim of organizing 6 to 8 exhibitions in two Telugu states every year. We will move forward with the cooperation of farmers, organizations and companies working for agriculture.
