Step 1: Measure Your Space

- Starting in the left corner, measure each wall in the space that will contain cabinets and record those measurements (in inches) on the "Floor Plan Design Grid" located on the last page of this Measuring Guide.
- Number each wall on the floor plan.

TIP

Be sure to measure the full length of each wall.

Step 2: Doors, Windows, Room Openings

- Locate and measure doors, windows and room openings.
- Record and Number each door, window and room opening on the grid.
- Record the corresponding dimensions in the measurement charts below.

TIP

When measuring doors, windows and room openings include the trim/casing in the dimensions.

Door/Opening Measurements

*Label on Floorplan using the corresponding numbers below

Opening or Door	Width	Height	Notes:

4			

Windows Measurements

*Label on Floorplan using the corresponding numbers below

Step 3: Obstacles

- Locate and measure obstacles such as electrical outlets, vents, pipes, radiators, ect.
- Record any islands you already have or wish to add.
- Record and Number each obstacle on the grid.

Step 4: Appliances

Common appliances typically come in standard sizes but it is important that we have the measurements. Luxury appliances such as cooktops, range hoods, warming drawers, and wine chillers have dimensions that can vary drastically.

TIP Send us manufacturer specification sheets and installation guides if possible.

Step 5: Ceiling Height

Accurate ceiling height measurements are very important when determining which wall cabinets and crown moulding you want in your new kitchen. It is very important to take several measurements as the height can vary in different spots in the room. Many older homes have soffits above their wall cabinets that need to be taken into consideration when creating your design.

TIP

Measure height in 3 areas and record the shortest dimension.

A = Ceiling Height

Ceiling Height: _____

Soffits (the area between the top of the wall cabinet and the ceiling).

Does the room have soffits?

If yes, please mark the diagram to the right.

☐ Yes ☐ No

Do you plan to keep the existing soffits?

☐ Yes ☐ No

Please check any additional items you are interested in adding:
