320 FM 3059 | STREETMAN, TEXAS

STRAIT
Ranches

HEFTE RANCH

Heterosis

Efficiency

Adaptability

Fertility

Dear Friends and Fellow Cattle Producers,

Thank you for your continued interest in our cattle. We are excited and grateful to be hosting the **Eighth Annual Strait-Hefte Tried & True Production Sale** alongside our partners, Hefte Ranch. The support this sale and our Santa Gertrudis genetics have received is something we never take for granted, and we so look forward to welcoming you back to Streetman, Texas.

This year's sale will again be split over two days:

- **Friday, October 17th at 4:00 pm – ALL BULLS**
- **Saturday, October 18th at 10:30 am – REGISTERED FEMALES**

Our family has been blessed to raise Santa Gertrudis cattle for over 70 years, and it is humbling to see the progress and momentum this breed continues to achieve. We remain committed to continuous improvement through careful data collection, extensive use of artificial insemination, and embryo transfer to multiply the very best genetics in our herd. Our goal has never wavered - to raise fertile, functional, efficient cattle with a phenotype that stands the test of time.

We are again proud to showcase the genetics of our customers alongside our own. Previous buyers have the opportunity to consign one female or one exclusive semen or embryo package, and we are honored to feature these outstanding consignments in the 2025 offering.

We believe this year's sale cattle represent one of the deepest, most exciting sets we have ever assembled. Our females carry pedigrees stacked with proven genetics, while our bulls combine real-world functionality with the kind of genetic potential that could influence herds for years to come. All Strait Ranches branded bulls have been developed in grass traps on the ranch in Streetman, ensuring they are ready to work in your program.

As always, we remain appreciative for the opportunity to continue Dad's vision and legacy. Our team at Strait Ranches is the backbone of this operation, and we are deeply grateful for their dedication and hard work. Thank you to our manager Francisco "Frank" Garcia for his commitment to Strait Ranches.

We invite you to join us in Streetman on **October 17th and 18th**. We also welcome you to come by prior to the sale to view the offering in person. Online bidding will be available through **DVAuction.com**. If you have any questions, please don't hesitate to call Yancey (972-841-0989), Frank (Se Habla Español – 979-533-3213), or Callie (210-837-1199).

We are thankful for each of you and for your friendship, support, and commitment to the Santa Gertrudis breed. We are also thankful for health, family, rains, lasting legacies, and the power of hard work and dedication that bind us together as cattle producers.

We look forward to seeing you this October!

Many thanks,
The Y.N. Strait Family

Francisco
"Frank"
Garcia

The Y.N. Strait Family
Cynthia, Yancey, Heather,
Avery, Arden, Callie, Jake,
Piper and Nellie

Dear Friends, Family, and Customers,

First and foremost, we would like to express our deepest gratitude.

To those who have built a legacy in this industry—you have set a standard worth dreaming about and paved a path for the future. Your wisdom and guidance are invaluable, and the example you've given us is truly a blessing.

To those who put up with us day in and day out—you know who you are. We're sorry (kind of), but as you know, cattle are in our DNA. We just can't help ourselves. For the sake of our relationships, maybe just don't work cows with us!

To those of you who trust us enough to invest your hard-earned money in our genetics—there is nothing more humbling. We are truly grateful.

With that said, I'd like to share the heart behind our cattle. We believe in balance. We believe in longevity. We believe that depth and consistency are found in the cow herd. We believe strength and change come from the bull battery. Over time, we've narrowed down the sires we use to build type and consistency in our cattle, while also bringing in certain bloodlines to fill gaps where we felt improvement was needed.

We don't breed for short-term results—we breed with a long-term vision. When we offer animals at the Tried & True Sale, we do so with the goal of providing lasting qualities that can make a consistent, positive impact on your program year after year. We realize that every animal doesn't fit every program, but that's the beauty of this business! We all fill pieces of the pie.

We are encouraged by the positive feedback we receive, and we are driven by the challenges and critiques. We look forward with excitement to this year's sale, and we are proud of the cattle we're offering. We can't wait to eat, laugh, and catch up with everyone this October.

Glory be to God,
Kade Thigpen
and the Hefte Ranch Crew

Real time bidding & proxy bidding available.

Docility Score Descriptions

Score	Description
1	Very Comfortable- Bull stands quietly when evaluated.
2	Comfortable- Bull slowly walks when evaluated.
3	Uncomfortable- Bull walks faster when evaluated.
4	Nervous- Bull desires to return to herd when evaluated.
5	Very Nervous- Bull is aggressive when evaluated.

**The above scores are presented as an additional tool to assist in the selection process, but all bulls may act differently in new/different situations/locations.

LOAD OUT

Load out to begin after completion of the sale. The purchased animal is the sole responsibility of the buyer, but the sellers agree to maintain and care for all animals through Monday, October 20, 2025 at no additional cost. The seller is not responsible for any injury or loss after the animal is sold. If other arrangements are needed then those must be agreed to before the sale.

TRANSPORTATION

We have arranged professional hauling services to be available sale day for buyers needing animal transportation. Central ranch drop off locations across the eastern United States and Texas can be coordinated. If you have any questions or need transportation assistance please contact Darrell Pitchford, 903.388.2288

HEALTH PAPERS

Health papers for interstate shipment within United States will be provided for all animals.

SIGHT UNSEEN PURCHASES

All purchases made on order or through the internet are 100% satisfaction guaranteed upon delivery.

PE to SR VISION 30/K10 (20221029) from 05/16/25 to 08/18/2025

This powerful, polled female traces back to the highly regarded KR 921/15 and the productive HEFTE RANCH D11 cow family, blending proven performance with maternal strength. With her unique pedigree, F16 offers fresh, diverse genetics that can be confidently mated across today's leading sires. Backed by AI selection and Hefte Ranch's reputation for structural soundness and fertility, F16 represents the kind of balanced female that will generate value in any herd. She has maintained a 381 day calving interval with six calves produced, two of which we have retained as replacement heifers. Take a look at her heifer calf at side to see what this cow is capable of! She has never been flushed, but we certainly consider her donor quality. Sells safe in calf to the powerful SR VISION 30/K10 bull!

PE to SR VISION 30/K10 (20221029) from 05/16/25 to 08/18/2025

HEFTE RANCH D93 is the dam of the infamous HEFTE RANCH PURE SWAGGER F19 bull. Buena Vida Cattle Co. has done great things with Pure Swagger and he has certainly made a name for himself in the breed. HEFTE RANCH D93 offers proven genetic integrity, reliable performance and structural consistency in any breeding program. D93 is sired by ROSE HILL SAM HOUSTON 831 and out of donor cow, HEFTE RANCH MIRA X58, positioning her firmly within elite maternal and performance driven purebred Santa Gertrudis lines. D93 delivers proven functional longevity, offering dependable genetics for both commercial and seedstock operations as seen through her first calf Pure Swagger and all the way to HEFTE RANCH N197 that is still on her side. Sells bred back to SR VISION 30/K10 whose first set of calves are very impressive!

As a Star 5 Level II purebred (75% Santa Gertrudis) polled cow, L84 brings structural advantage and a clean genetic base, ensuring viable diversity for breeding programs. She is sired by the proven HEFTE RANCH H120 ET and out of the maternal line of HARRIS GUNS UP 253F14 owned in partnership with Strait Ranches — a combination that inspires confidence in her mix of performance pedigree and strong maternal heritage. L84 embodies both pedigree reliability and functional foundation. Sells safe in calf to the impressive SR VISION 30/K10!

N104 is the first calf raised by L84, the HARRIS GUNS UP 253F14 daughter. He is sired by RED DOC POBLANO 3270 and out of HEFTE STRAIT L84, combining proven Red Doc performance and maternal strength within his pedigree. N104 presents a unique genetic profile and has proven to grow well and develop at an early age.

LOT 11 - HEFTE RANCH M02

We purchased this heifer's dam from Red Doc at the 2014 Super Sale and she has provided an excellent "return on investment". RED DOC 2029 produced 9 calves with a 351 day calving interval. This stout, gentle polled heifer looks just like her dam and has strong maternal EPDs. She combines the proven strength of HEFTE RANCH F14 TOMCAT with the longevity-tested RED DOC 2029, offering a well balanced pedigree with both performance and maternal depth. M02 signifies a foundation of structural and reproductive functionality, and exhibits early potential as a balanced, herd building female.

LOT 12 - HEFTE RANCH M09

This smooth-made, polled purebred cow combines the robust genetics of HEFTE RANCH F14 TOMCAT and HEFTE RANCH G21 ET to deliver a balanced blend of performance and maternal strength. Dam G21 ET goes back to our Z01 line and has produced five calves so far with an impressive 348 day calving interval. M09 scanned a 4.88 IMF with only .15 BF. Take a look at her solid indices across the board. M09 presents as a structurally sound, genetically promising female that's poised for consistent longevity and utility in your registered program.

LOT 13 - HEFTE RANCH M147

HEFTE RANCH M147 is a Star 5 Level II (75% Santa Gertrudis) powerful polled heifer, designed to preserve breed integrity while adding genetic diversity. Sired by the performance driven HEFTE RANCH H120 ET and out of HEFTE RANCH F67, her pedigree connects growth traits with proven maternal advantage. Her dam, HEFTE RANCH F67 is a D25 daughter with a 368 day calving interval and 6 calves produced. M147 blends functionality, genetic potential, and longevity that progressive breeding operations value. Her pedigree isn't "young", but its proven and consistent in profitable ways.

LOT 14 - HEFTE RANCH M137

This pretty Star 5 Level II (75% Santa Gertrudis) polled heifer delivers fresh genetic value while retaining the consistency of her distinguished pedigree. Sired by Hefte Ranch H120 ET and out of Hefte Ranch G56, M137 brings together proven performance lineage on the sire side with a reliable maternal foundation, exemplifying Hefte Ranch's dedication to balanced, structurally correct cattle. M137 embodies the breed's trademark combination of functional longevity, genetic potential, and fancy phenotype ready to contribute to any progressive breeding strategy.

LOT 15 - HEFTE RANCH M21

This deep-bodied purebred heifer brings a unique pedigree that offers consistency for breeders focusing on specific lineage traits. She is sired by HEFTE RANCH TOUCHDOWN K147 ET and out of HEFTE RANCH J50, pairing a high performance, AI-proven sire with a validated maternal line. M21 combines structural eye appeal with a pedigree designed for stability, making her a reliable choice for breeding programs targeting consistency and proven bloodlines.

and HEFTE RANCH K89 (20222946) from 05/16/25 to 08/18/25

This feminine, polled purebred heifer offers a good balance of pedigree and genetic integrity. She is sired by the proven HEFTE RANCH F14 TOMCAT and out of HEFTE RANCH H68, blending performance lineage with a trusted maternal foundation. M37 demonstrates a structurally sound profile and pedigree-backed utility, making her a promising addition for your seedstock operation. Her performance backs this up ratioing 104 for WW, 113 for YW, 106 for REA, 103 for IMF.

O/X 924 is tried and true through and through as she is progeny of animals purchased at past Tried and True sales. Sired by Hefte Ranch H130 and SR 27/4 she is backed by proven genetics. This female is a deep-bodied, well-balanced heifer that stands on a solid foundation of structural correctness. She carries herself with the kind of natural muscle expression and rib shape that promise both performance and longevity. Her smooth front and feminine design make her a standout, while still maintaining the volume and capacity that cattlemen demand. If you're searching for a heifer that blends functionality with eye appeal, this one is Tried and True.

LOT 73 - BLACKTIP HEFTE M7320 ET

Another solid mating here. A direct daughter of the HARCO 1452 cow that has been so popular in the breed. 7320 has the ability to perform really well at any level in your program. Her solid EPDs say everything you need to know, and her pretty phenotype is just the cherry on top.

This April 24 open heifer combines an extremely feminine look with proven genetics. This daughter of SR Sendero is powerfully built and backed by the legendary L Line cow family, a foundation that has produced generations of breed leaders including Triple P herd sires Legend and Legacy. Triple P's L'sa is Strait Ranch double bred as her dam is sired by SR Titanium going back to LJV Mason. She has the look and design to hang banners in the show ring while carrying the maternal strength to anchor a donor program in any progressive operation. A female built for both the backdrop and the donor pen.

A storm is brewing, NTR Katrina 54/5 is blowing in and is going to be a force to be reckoned with! This elite, halter-broke heifer is the definition of the total package. She's freaky-fronted, bold-bodied, and carries the kind of power that will turn heads from the backdrop to the pasture. Sired by SR Genuine 23/H who is already proving himself and making a splash in the show world. His first set of calves have already added multiple class and division wins to his resume. Her Dam, NTR Thunder 13/7, is one of our favorite cows at the ranch. After a very successful show career, she quickly turned into one of our top producing females. Katrina's pedigree is stacked with champions and proven genetics all throughout. Don't miss your chance to tie into a future donor and show ring standout - NTR Katrina 54/5 is the kind of storm you'll want to chase.

OAR 79N puts together a balanced performance profile backed by our 79 line of cattle. The 79 Line are simply and outstanding set of females that perform at the top of the pack year after year. They are the type of cow you cannot have enough of. They have a modern look with natural thickness, great ribeye shape, and eye appeal. Simply put they just have that something extra that catches a cattleman's eye among inspection. Her grandam 5-E 79, matriarch of the 79 line of cattle continues to outperform and impress with her progeny. 79N is sired by our outstanding herd sire Hefte Ranch K28. K28 gave us an awesome group of calves this year with nothing to cull and 79N was our top pick. 79N has it all and is backed by our most Tried & True line of cattle and sired by one of the best herd sires in the breed.

LZDR MS Gen M25 "Gen", is our first offering out of MR WF 2033, who was one of the top selling bulls in the 2023 Tried & True Sale. He has a balanced set of EPD's and an excellent record of low birth weights. Gen's dam, MS N-N 209J is a great combination of performance and production genetics and is quickly becoming a standout female in our herd, with easy calving and great maternal characteristics. Gen has a quality pedigree with strong maternal influence and a collected personality making her a great addition to any program. Take Gen home and put her to work or take her to town and show her off.

Double Barrel Cattle Co is proud to offer this standout female, a truly unique genetic package. She is sired by the now closed off \$60,000 Red Doc Blaze, a bull known for adding elite quality and consistency. When paired with our Guns Up daughter, this mating created what we believe to be one of the most exceptional outcross opportunities in the breed today. This halter broke heifer combines fertility, maternal strength, capacity, length, and depth; all in a sleek, eye-appealing low birthweight frame. Backed by proven lines that emphasize low birthweight, rapid growth, carcass quality and docility, this female is built to elevate any program - whether you are looking to improve performance, phenotype or predictability.

Ridge Point 511 is a halter broke, beautiful show prospect out of Hefte Captain King J115ET and Ridge Point 18111 aka Rose. Captain King has the look and the numbers with multiple traits in the top 10 including all three indexes. He is producing thick deep bodied calves with good lines. Captain had a class winner and multiple calves in the top 5 at the 2025 Junior National Show. Rose is a 6 year old cow that has earned the right to stay on the ranch producing 5 good calves. Don't miss a chance to own a super show calf and a future great mama cow. Sells open, halter broke, gentle and ready for the show ring or your front pasture.

Buena Vida is excited to offer the first ever KK Tiago calf to sell, and she's something special. Her pedigree is loaded as she's out of a 3/4 sibling to 2023 National Champion and rising sire KK The Valedictorian. On the top side, her lineage traces back to foundation females like SR Arkoma 30/0 and SR Holly T19, as well as proven sires such as LJV Mason, SR Genesis, CVF 2022, Red Doc Never Before, Honey Badger 1202, and our own Hefte F19 Pure Swagger, the sire of three National Champions. Her dam, "Emmy Lou," is an SR Paradigm daughter that also stacks KR Catalyst, National Champion SJ High Roller, and 5-Es Seven. The genetic power here is undeniable. Lola Beth is dark cherry red, gentle, and halter broke. She ties together eye-appealing design with real functionality, the kind that will perform in the show ring today and make a front-pasture donor tomorrow. Backed by this pedigree and built with this kind of look, she has the potential to take a program to the next level.

Townsend Cattle Ms 506 ET is an excellent SR 75/3 Genesis daughter out of Red Doc 7470. SR 75/3 Genesis is a proven sire in Strait Ranches' breeding program coming from LJV Mason 0/72 & SR 30/0 Arkoma. 7470 is a RDF Sancho's Never Before 1136 granddaughter, and an own daughter of KR 189/1. Her dam Ms SR 90/4 is a proven donor as well. Townsend Cattle Ms 506 combines top performance genetics & strong phenotype lines. This open heifer is a donor quality female with strong EPD's & longevity bred into her. Ms 506 has 6 EPD's in the top 30% with Weaning Weight & Yearling Weight being in the Top 5% and Carcass Weight in the Top 10%. Take note of the EPD similarities she has to her dam 7470 where they both boast a Top 15% in Total Maternal, and have Balanced Indexes of 10% & 2%, Cow/Calf Indexes of 20%, and a Terminal Index of 10% & 1%.

LOT 101 - SR CORNERSTONE 1322/M

1322/M has the look and the numbers. He is sired by QVF Red Rock 82H11 and out of the Harris 1322 maternal line. Please look at the females selling out of the same genetic line. He is another top performer with a WW ratio of 119, YW ratio of 108, REA ratio of 105 and IMF ratio of 128. 1322/M is truly a genetic standout with 11 EPDs ranking in the Top 30%.

LOT 101

LOT 102 - HEFTE RANCH M12

This is a first for us - and one we're both excited and a little nervous about. We are offering not one, but two full sibs to bulls that we currently rely on as leading herd sires. HEFTE RANCH M12 is a full sib to HEFTE RANCH K18, the sire that will have more calves on the ground for us this year than any other. The K18 progeny speak for themselves - they grow quickly, carry a ton of eye appeal, and possess a natural thickness that's hard to put into words. This is your opportunity to step directly into our program and breed what we are breeding. His dam is one of the prettiest, thickest cows we own, and she backs it up with performance - five calves on a 367 day calving interval. M12 boasts a 4.8 actual IMF ratioing at 107, 40 cm scrotal circumference, and a 650 lb adjusted weaning weight. Combine that with strong, balanced EPDs across the board, and you have a bull designed to advance any herd with both predictability and style.

LOT 103 - HEFTE RANCH M27

This is your second opportunity to step directly into our program and breed what we are breeding. M27's dam, HEFTE RANCH E16, is one of the best bull-making cows we own, and she has proven it in production and performance. We are extremely selective about who makes it into the donor pen at Hefte Ranch, but E16 made it in with ease. Her 2022 born son, HEFTE RANCH K20 has been covering all of our replacement heifers post AI for the past two years, and we could not be happier with the results he has delivered. M27 takes it even further - he carries more breed character and more growth than his brother, giving a distinct advantage to the buyer. With a 654 lb adjusted weaning weight and 40 cm scrotal circumference, M27 stacks maternal power, structural strength, and breed character into a total package designed for long term herd impact.

LOT 103

LOT 104 - SR SEDONA 461/M

461/M is a combination of modern and proven genetics being sired by the QVF Red Rock 82H11 bull and out of an Olivarez Ranch cow, 6/614. He had a WW ratio of 103, REA ratio of 109 and IMF ratio of 120. 461/M has 9 EPDs in the Top 35%.

LOT 105 - SR TRIUMPH 253/L

253/L will catch your eye when you drive into the pasture. He is sired by SR Mpact 2/H4 who is now owned by Reynolds Prairie View Fams and out of an ET daughter of Red Doc Lumbre and the Harris Guns Up 253F14 donor cow. His dam, 253/J2, has a 362 day calving interval after 2 calves. 253/L had a YW ratio of 102 and IMF ratio of 103. 253/L has 8 EPDs ranking in the Top 40%.

LOT 105

LOT 106 - HEFTE RANCH M127

Probably the most complete HEFTE RANCH H82 son we have had the privilege of raising, this bull combines style, muscle shape, and EPD strength into the total package. His dam, HEFTE RANCH E90, is the epitome of a Santa Gertrudis cow - dark cherry red, beautifully made, and packed with breed character and leather. His sire, H82 is known for producing stout, high-performing bulls, and this young prospect is no exception. We are confident his offspring will bring consistency, growth, and look to your program. This is exactly the type of bull we strive to produce and are proud to offer.

LOT 107 - HEFTE RANCH M80

Sired by HEFTE RANCH H82 and out of SCHUSTER MS CATALYST 49/20, M80 brings performance-first genetics with maternal balance, offering lineage strength on both sides of his pedigree. He embodies structural integrity, genetic balance, and the kind of soundness and reliability breeders seek in young sires ready to make a lasting impact. M80 is very similar in make up to his sire who is one of the best breeding pieces we have ever used at Hefte Ranch. Notice this bull is in the top 1% for all three indices - that kind of balance is hard to come by!

SR Equity 745/L2 is an own son of Harris 190E and out of a daughter of our Briggs 745/14 donor. His dam, 745/J5, has a calving interval of 387 days after 2 stellar calves with her second calf being a heifer shown by Piper Loden. We really appreciate his true performance with a WW ratio of 107, YW ratio of 106, REA ratio of 107 and IMF ratio of 110. 745/L2 has 10 EPDs ranking in the Top 40%.

HEFTE RANCH M175 ET brings added value through genetic precision and royal lineage. His sire, KR 191/13, is an extremely proven herd sire and HEFTE RANCH F58 ET, (the dam of our senior herd sire, H82) anchors him in a maternal line known for dependability - making this cross an attractive blend of pedigree and functional efficiency. Developed with the mindset to "make a better 191", M175 ET carries the breed's trademark soundness, structural balance, and bloodline consistency. He is an excellent candidate to contribute both genetic depth and longevity to forward-looking breeding operations. We believe that M175 ET carries the attributes of his sire and also provides improved EPDs.

This rugged-made bull is the kind that immediately catches your eye out in the pasture. He walks with confidence, and his genetic background gives him the ability to back it up. His dam, HEFTE RANCH F47, traces back to the extremely fertile HARRIS FARMS 37/8 cow, a foundation female in our program known for longevity and productivity. F47 has produced six calves on a 377 day calving interval, proving her consistency and fertility, and she is also the dam of one of our most exciting young herd sires, HEFTE RANCH K34. With a 663 lb adjusted weaning weight, this bull combines style, substance, and a proven maternal line - here's an opportunity for any program to add performance and reliability.

This incredibly stout-made bull stands out not only for his phenotype but also for his numbers—he carries one of the strongest EPD profiles of any Hefte Ranch bull in this sale. His maternal side is anchored by one of our most respected and carefully protected cow families, with his dam HEFTE RANCH H90 setting the standard. She has absolutely perfect teat and udder structure and has proven herself to be one of the most dependable cows in the pasture. Performance only adds to the package: he posted a powerful 765 lb adjusted weaning weight and scanned an impressive 14.65 REA with a 109 ratio. Going back to our A51 cow line, this bull blends elite data, maternal quality, and structural correctness into a total herd sire package designed to deliver both performance and dependability.

This bull's young dam has impressed us with every single calf she has raised. HEFTE RANCH H22, a D25 daughter, is destined for our donor pen after producing four top tier calves, including her 2023 son, HEFTE RANCH L98, now serving as a young herd sire at Hefte Ranch and whose calves we eagerly anticipate in 2026. The performance in her offspring is consistently at the top of every contemporary group, and the phenotype is equally strong. M42 continues that legacy with a 677 lb adjusted weaning weight and 38 cm scrotal circumference, proving his performance matches his pedigree. He is a gentle, rugged-looking bull who takes after F14 in phenotype, combining eye appeal, structural integrity, and maternal power into a package built for long term herd impact.

HEFTE RANCH M20 is one of the deepest, soggiest bulls we have raised, and if you're looking to add broody, maternal qualities back into your cow herd, look no further. His sire, HEFTE RANCH K147 TOUCHDOWN, purchased in partnership by Harris River Bend and San Jose Cattle Co. in the 2023 Tried & True Sale, has been a highly anticipated young herd sire, and M20 shows exactly why we were so eager for his calves. Out of a first-calf heifer, he hit the ground at just 75 pounds, then pushed all the way to a 1,255-lb yearling weight, scanned a 14.39 REA, and posted an impressive 4.75 IMF. His EPDs are as consistent and balanced as any bull in this year's offering. If you need a bull to turn a cow herd around and bring back breed character without sacrificing performance - this is him.

Step into the winner's circle with The Gambler - a purebred, polled bull with game-changing genetics. Sired by HEFTE 5J'S JACK OF ALL TRAITS 05/20 and out of HEFTE RANCH G67, he offers proven performance from both sides of the ledger. This bull gives you the opportunity to "bet on the future" with confidence—backed by genetics that pay off. Not to mention his dam is one of the best KR 191/13 daughters to walk in this breed.

Talk about fertility - 21/4's dam consistently breeds within the first 30 days of being turned out, proving her dependability year after year. In fact, she was moving up so quickly in her cycle that Jack had to hold her back just to keep her in line with the rest of the herd. This bull is exactly what we want to see from our ET program: a product of a proven maternal line and an outstanding sire that has exceeded every expectation. Though he is one of the youngest bulls in the sale, don't discount his size or his potential - mark my words, he has all the makings of a leading herd sire for any program.

It is always exciting to see genetics come back around and work the way we expected. His dam, HEFTE RANCH J60 was purchased by Lazy Dog Ranch in the 2023 Tried&True Sale and went on to produce this bull as her first calf. This young bull is well made, complete, and balanced across his EPD profile, giving him the versatility to be used with confidence. We would personally use him back on heifers in our program, as his build, bone, and structural correctness makes us think he would be a good fit for calving ease while still carrying the growth and performance you want in a herd sire.

0004M's dam was a standout in the Red Doc sale the year we purchased her, and she has proven her worth with every calf since. Her first two calves were bulls, and both earned their way into the Tried and True Sale, a testament to her consistency and quality. She has a track record of producing offspring with impressive carcass merit, particularly large REA/cwt, and this bull is no exception. He led our spring gain test and backed it up with a 1.25 REA/cwt and 4.56 IMF, putting him among the most balanced and performance-oriented bulls in the offering. Backed by strong maternal EPDs, 0004M combines phenotype, carcass strength, and genetic predictability into a package built for long term herd improvement.

HEFTE RANCH M58 is a Star 5 Level I (50% Santa Gertrudis) polled bull, that brings completely fresh genetics into any breeding program, maximizing diversity while retaining clear pedigree and genetic progress. Bred via artificial insemination, M58 reflects thoughtful genetic selection and represents a structurally sound, functionally versatile young sire with promising breed up potential. We used this bull on a few heifers in our program and are excited to see his offspring.

The next generation
of nutrition is here.

Fill Nutritional Gaps with AMPT Minerals

AMPT Minerals target optimum nutrient levels, complementing the forage, with distinctive mineral sources selected for achieving precision and balance. AMPT **now delivers 100% chelated copper, manganese and zinc for improved bioavailability**, providing a positive impact on critical body functions to benefit overall performance. The production returns for an effective mineral program far outweigh the cost. The right mineral supplementation pays.

TRACER
MINERALS

Antagonistic Metals: A Hidden Threat in Texas Cattle

Antagonistic metals like Iron and Sulfur in feed and water block mineral absorption, weaken immunity, and slow growth. The result? Lost performance and lost profit.

BUILT TO PERFORM IN TOUGH TEXAS CONDITIONS.

Tracer Minerals delivers the solution

Our amino acid chelated minerals stay available to the animal, even under antagonistic metal stress.

- ✓ INCREASED FERTILITY
- ✓ BETTER ABSORPTION
- ✓ STRONGER IMMUNITY
- ✓ IMPROVED GAINS & FEED EFFICIENCY

Family-owned. American-made. Science-driven.

To our 2025 sponsors,
your support is greatly appreciated.

TERMS & CONDITIONS

BIDDING

Each animal will be sold to the highest bidder without reserve. The auctioneer will settle any disputes as to bids and his decision on such matters shall be final.

TERMS

Each animal becomes the risk of the purchaser as soon as sold, but it shall be the obligation of the seller to see that animals are fed and cared for until loaded for shipment or until Monday, October 20, 2025, whichever occurs sooner.

CERTIFICATE OF REGISTRY

A transferred certificate of registry will be furnished to the purchaser for each registered bull or registered female once proper settlement has been made.

HEALTH

Health papers for interstate shipment within United States will be provided for all animals.

ANNOUNCEMENTS

Any changes from the information of any kind in this catalog will be provided in a sale day supplement sheet or announced from the auction block and such information shall take precedence over cataloged information.

BREEDING GUARANTEE

All animals are guaranteed to be breeders with the exception of: a) calves under 12 months of age; b) animals shown by purchaser after sale in which the guarantee (if any) shall be between the seller and the buyer; c) injury or disease occurring after the sale; d) gross negligence or willful misconduct on the part of the purchaser; e) death by any reason.

Any bull which either a) settles 1/3 or more of the healthy cows he serves; b) is the sire of 20 or more animals; or c) settles cows by natural service and passes a fertility test made by a competent veterinarian during any 6 month trial (provided for in the section of these sale terms and conditions entitled "Options and Privileges of Return or Adjustment" shall be considered a breeder. All partial interest bulls are guaranteed to produce freezable quality semen.

Safe in calf females have been examined by competent personnel and are so guaranteed. Exposed females have been exposed but are not guaranteed to be safe in calf. Open females have not been served and are so guaranteed.

PREGNANCY DETERMINATION

The females in this sale noted safe in calf have been determined pregnant by physical palpation. Our best estimate of service sire will be given in the case of the females with both an A.I. sire and a natural breeding sire.

OPTIONS AND PRIVILEGES OF RETURN OR ADJUSTMENT

The following adjustments do not preclude the right of the Purchaser and Seller to mutually agree upon other terms and conditions for settlement of any dispute. All claims for adjustment or refund must be made in writing either within six (6) months from the date of sale or no later than when the animal reaches 24 months of age, whichever occurs later, with the exception of claims involving parentage or defects. All returns or refunds will be paid in the form of a replacement animal of similar quality or in credit for use on any products marketed by the seller. a) This credit will be limited to the purchase price less the salvage value of the animal.

1) In the event an animal is claimed to be a non-breeder, the animal may be returned to the ranch of the Seller, at Purchaser's expense, if in good physical condition, and the return is in compliance with the health requirements of the Seller's state. The Seller shall be entitled to a six (6) month trial period following the return of the animal in which to prove that the animal is a breeder. If at the end of six (6) months, the Seller is unable to prove the animal is a breeder, the seller shall, at the option of the Purchaser, replace the animal with another of similar value or grant the Purchaser a credit on any products marketed by Seller. Either of these options shall be deemed full satisfaction and settlement. If the Seller proves the animal to be a breeder, it shall be the obligation of the Purchaser to take delivery of the animal and pay all expenses incurred for transportation. 2) If a registered female sold as "safe-in-calf" proves not to be in calf (by the projected due date listed in the catalog or sale day supplement), the Purchaser may receive service from the bull previously used, if available or if the bull is not available the Seller shall be obligated to credit or refund the Purchaser \$400. Any adjustment provided for herein shall absolve the Seller from further liability, except in case such female proves to be a non-breeder. If a female represented as "safe-in-calf" at time of sale to a certain bull proves to have been bred to a different bull, the Seller shall be obligated to reimburse the Purchaser up to \$600

(adjustments shall not be considered to be a breeding fee or an allocation of the purchase price to any unborn calf). This does NOT apply to any female exposed to more than one bull via artificial insemination and/or natural service. Any expenses incurred for transportation shall be the responsibility of the Purchaser. 3) If a female sold as "open" proves to be with calf, the Purchaser may return the animal to the ranch of the Seller prior to calving for a credit of the full purchase price or for another animal of similar value, whichever is acceptable to the Purchaser. It shall be the obligation of the Seller to bear any expense incurred for transportation.

If a bull is sold and at a later date proves not to be eligible for registration under association rules, the seller shall be obligated to make a satisfactory adjustment on the purchase price to the buyer, refund the purchase price or issue a credit for the initial selling price upon the return of the animal to the farm of the seller.

If an animal is sold and through DNA is proven to have incorrect parentage as represented by the certificate of registration, and for which the parentage can be determined, the seller shall be obligated to make a satisfactory adjustment on the purchase price to the buyer, refund the purchase price or issue a credit for the initial selling price upon the return of the animal to the farm of the seller.

RIGHTS AND OBLIGATIONS

The above terms and conditions of sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding on both. Other than the guarantees and warranties stated above, no other warranties or guarantees are expressed or implied. Each sale or resale of an animal constitutes a separate transaction.

LIABILITY

All persons who attend this sale do so at their own risk. The owners or any other person connected with the sale assumes no liability, legal or otherwise.
