A Few Helpful Details

Photo Slideshow

Bring a USB stick on the day with up to 150 photos (JPEG or PNG). Landscape orientation works best — portrait or phone screenshots may not display well. Photos play in file name order. No PowerPoints, videos, or movie files.

Music & Playlists

Send your playlist via screenshots or a Spotify/YouTube link around a week before the event. I always take requests on the night too!

Add-Ons

Extra services can be added any time right up until your event date — just get in touch.
