

SHANGHAI PEFTE
CHEMICAL TECHNOLOGY CO. LTD.

—TECHNICAL DATA SHEET—

三丁基氧化锡 Tributyltin Oxide

CAS No.: 56-35-9

MF: C₂₄H₅₄O₂Sn₂

MW: 596.08

Specifications:

Appearance: Colorless or light yellow liquid

Tin Content: ≥38%

Applications:

With high biological activity

Tributyltin Oxide can be used as a sterilizing agent and antifungal agent. Tributyltin Oxide is widely used in wood preservation, ship paint, etc.

Packing:

200 kg/ galvanized iron drum

Note: With high toxicity, do not be careful to stick to the clothes or skin should be immediately washed with soap and water.
