

**DIAMOND SCHOOL OF DANCE
PROUDLY PRESENTS...**

ONE *Magical*
DAY

A white silhouette of a ballerina in a dance pose, surrounded by several white starburst graphics.

**SUNDAY, JUNE 9
4:00PM**

Dear Dance Moms, Dads, and Grandparents,

As you sit in the audience today, we want to extend our heartfelt thanks for supporting today's event. Your presence means the world to us and to your dancer.

It has been an honor and a joy to to be a part of your dancers week all season! Through dance, they are learning so much more than just great dance skills. They are growing in confidence, learning to work as a team, overcoming challenges, being creative, expressing themselves, and understanding the value of hard work to achieve their goals.

We hope that you will savor every moment of today and this season in your child's life. From the moments getting ready to take the stage to that big hug when you pick up your dancer after the show, these experiences will one day be the best memories. So, take all the photos, live in the moment, and enjoy every second of today!

We are grateful for the trust you place in us. Watching your dancers grow and develop has been a privilege, and we cherish every moment spent with them this season!

Thank you for supporting today's event and being part of our dance family at DSD!

With deepest gratitude,

Miss Alicia

Graduating Senior Dance

FINAL BOW - All Dancers!

Thank you for a WONDERFUL season!

Cora has been dancing on and off her whole life and this was her first season dancing competitively! She has found contemporary to be her favorite style of dance and she loves how much emotion and storytelling can be expressed with this style!

In the fall Cora will be attending UW-Milwaukee to study psychology. Her best advice to the next generation is to have fun with it and enjoy your time with your friends, and to remember that hard work hard, it pays off!

Dance has introduced Cora to many amazing friends and has brought a supportive community into her life. Her mom has been her greatest influence, as well as her best friend. She has always supported Cora through everything, and she aspires to be more like her.

Cora would like to thank Diamond for being patient with her, as this was her first year and she is a senior. Thank you for believing in her when she didn't believe in herself!

2024
class of

Congratulations Cora Barneson!

Ava has been dancing since she was 4 and has loved every single style of dance she does. It is impossible to pick just one because they are all so different and each style has something to love!

After graduation, she will be attending the University of Minnesota Twin Cities, majoring in biology on track to be pre-med. Her best advice to the next generation is to push yourself every day, but don't lose sight of your love for dance. Set big goals for yourself, work for and celebrate your accomplishments, support and encourage your teammates, and enjoy every moment, it doesn't last forever!

Ava has been dancing for as long as she can remember and she loves it more than anything. She loves watching, performing and competing dance, working on skills, and even extreme cardio days. Growing up at dance has taught her about the importance of self discipline, how to be a good teammate, and has also allowed her to form life-long friendships.

Her parents have made the biggest impact in her life. They are her role models and best friends. They have supported and cheered her on at every competition, and made endless sacrifices over the years that have allowed her to continue to do what she loves. She is so grateful for everything they have taught her and for their decision to put her in dance as a child.

Ava wants to thank DSD for teaching her everything she knows and pushing her to be better. The studio has helped her to grow as a dancer and as a person.

20*class of*24

Congratulations Ava Joufar!

Lexi's favorite styles of dance are both lyrical and ballet. She loves the grace that comes with dancing both of these styles! She has been dancing for 14 years, 10 of those years competitively.

She will be attending Oral Robert's University down in Tulsa, Oklahoma majoring in Bio-Med Chemistry and minoring in Psychology in the fall. She feels dance has given her an outlet to express herself and improve her self confidence. It has also helped her to make new friends and the studio has become a second family to her.

The biggest impact in Lexi's life has been her dance teacher, Miss Erin. Erin has taught her for the last 10 years and watched her grow from a child to an adult. She has not only taught Lexi how to become a better dancer but also a better teacher. She has become a role model for her and someday she hopes to have half of the grace, kindness, and work ethic that Erin has shown to all of her students over the years.

Lexi's best advice to the upcoming generation is to take your time with everything. It might seem like the days are going slow but time moves really fast. Treat your team mates with kindness because they should be like family to you. Lexi would like to say thank you to DSD for making this studio be such a family. Thank you for supporting her throughout these years and thank you for giving her such a great experience and opportunity to grow and learn!

20*class of*24

Congratulations Alexis Thompson!

Grace has been dancing for 9 years and her favorite style of dance is jazz. She thinks jazz is a really fun style to dance!

She will be attending the University of Minnesota Twin Cities for kinesiology in the fall and wants to remind all the up and coming dancers to enjoy every minute and never forget to have fun!

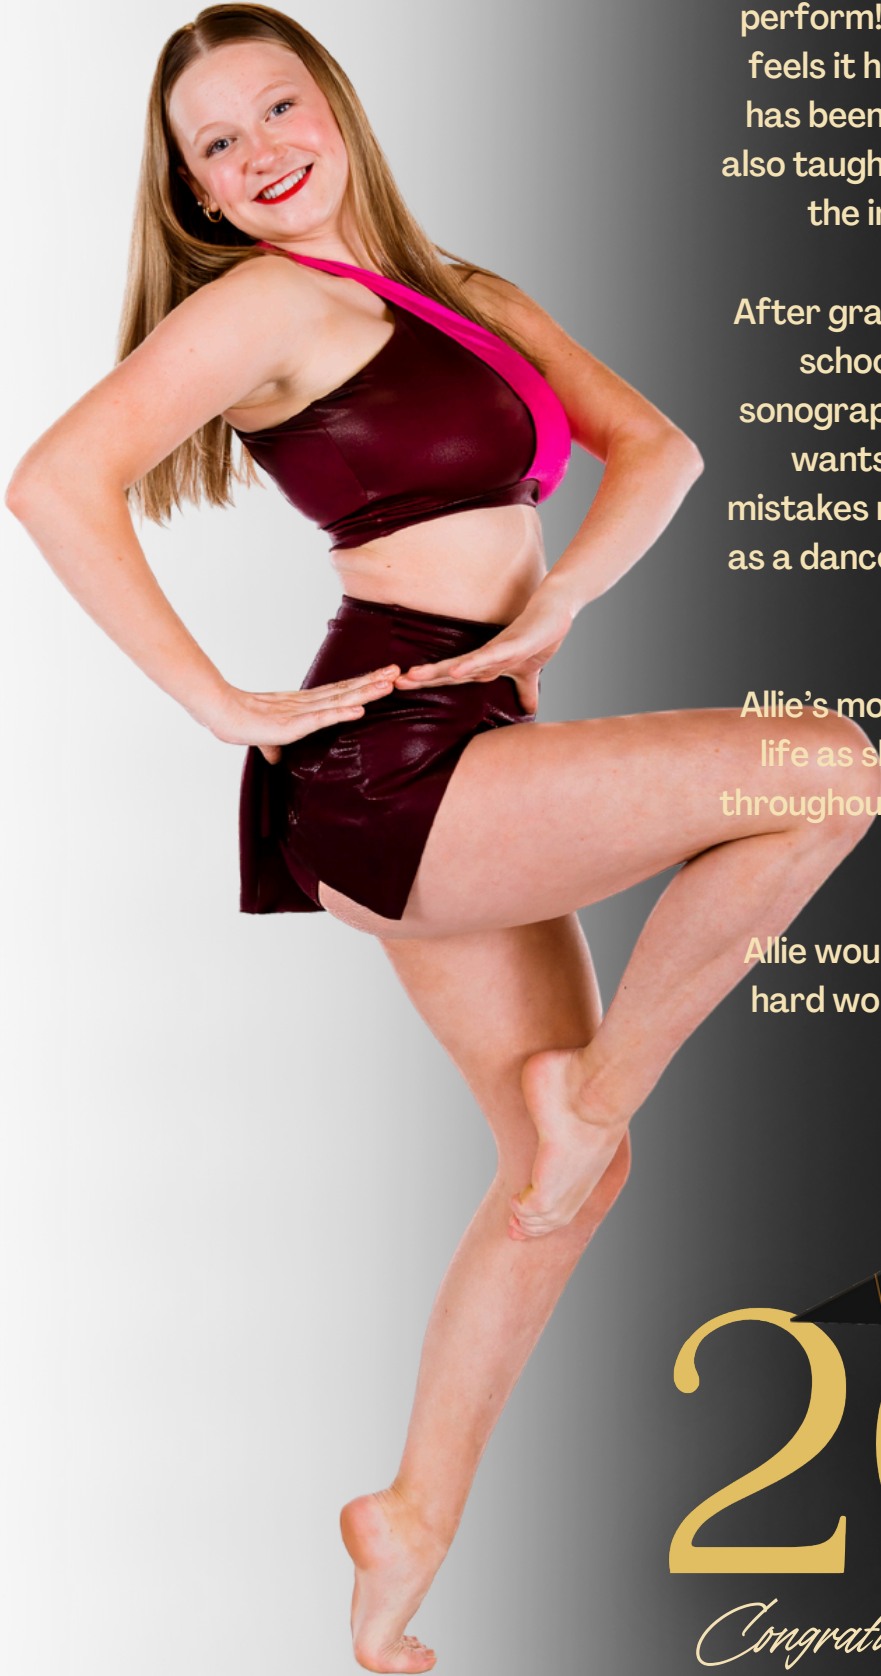

Dance has helped Grace make friends that will last a lifetime and challenged her in many positive ways. She wants to thank Diamond for all the time and dedication the studio has put into her and all the other dancers.

Grace's biggest impact in her life has been her mother because she is the kindest and smartest person she knows. She wants to thank her for everything she has taught her over the years.

She would like to Thank DSD for all the time and dedication the studio has put into her and all the other dancers.

Congratulations Grace Allen!

Allie's favorite style of dance is jazz! She loves jazz's high energy and thinks it is incredibly fun to perform! She has been dancing for 10 years and feels it has given her a sense of community and has been a constant in her life for so long. It has also taught her time management, work ethic, and the importance of building connections.

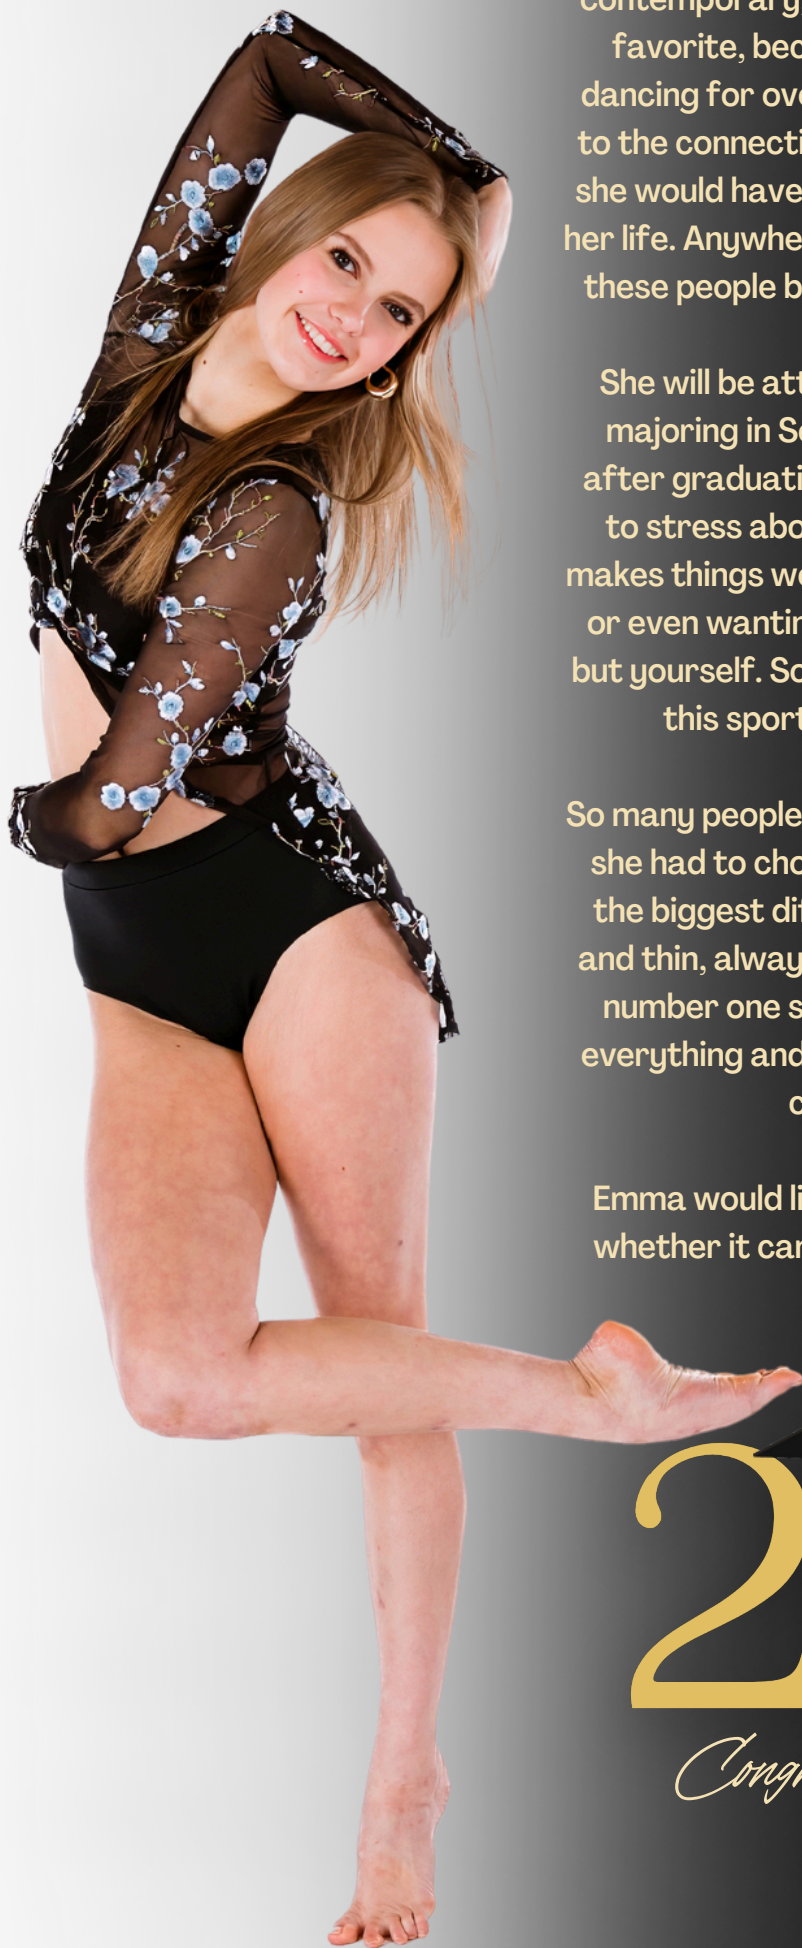

After graduation Allie plans to attend a technical school in the area for diagnostic medical sonography and continue to work part time. She wants to remind the next generation that mistakes made on stage do not define your worth as a dancer but rather the work you put in, and to never forget to have fun!

Allie's mom has made the greatest impact in her life as she has encouraged and supported her throughout her dance career and outside of dance in every way!

Allie would like to thank the DSD staff for all the hard work they put in, inside and outside of the studio. THANK YOU!

20*class of*24

Congratulations Madelyn Everson!

Emma enjoys all the styles of dance from lyrical and contemporary, to jazz and hip-hop! She can't pick just one as her favorite, because she loves to dance them all. She has been dancing for over 7 years and feels that everything comes down to the connections she has made through dance. Without dance she would have never met some of the most important people in her life. Anywhere she goes in life, she knows she will forever have these people by her side, and for that she is incredibly thankful.

She will be attending the University of California - San Diego, majoring in Sociology with concentration in Law and Society after graduation, and wants to remind the next generation not to stress about what others are doing or performing, it only makes things worse. Whether it be comparing yourself to others, or even wanting others to try harder, you can't control anyone but yourself. So put the most effort into yourself, because doing this sport for others never works out in the long run!

So many people have made an incredible impact on her life. But, if she had to choose she would say her dance friends have made the biggest difference. They have been with her through thick and thin, always there whenever she needed them. They are her number one support team, and she always turns to them for everything and anything. Without these people, she would most certainly not be where she is today!

Emma would like to thank Diamond for always listening to her, whether it came to an injury, or even her thoughts as a whole. It means a whole lot. Thank you!

20*class of*24

Congratulations Emma Swanstrom!

Dance has been a part of Mhadie 's life for several years and she has been dancing competitively for the last two seasons with DSD! Her favorite style of dance is contemporary and she loves how expressive she can be when dancing it!

After graduation Mhadie will be continuing her education at Grand Canyon University majoring in Pre-Law. Her best advice for the next generation is to focus on yourself, your own achievements, your own improvements and your own standards while still being supportive of the people around you.

Dance has taught Mhadie how to stay determined and resilient while also creating a space to explore who she is and what makes her happy. Her family has made the biggest impact in her life through the lessons they have taught her and the love and support they have provided throughout her life.

Mhadie would like to thank the DSD staff for all the opportunities and encouragement. She has learned so much from everyone and is so glad to have been a part of DSD. Thank you
