

Rongoā Tara Hauwai

Hauwai treatments are a traditional approach used to provide Rongoā through infused steam. Directed Rongoā infused hydrosol steam into the vaginal area, permeates through the skin/tissue, allowing the natural treatment to access, cleanse and provide restorative properties to the deeper layers of tissue. Followed by an external mirimiri of womb and belly assists to activate, and energetically rebalance the physical space, whilst spiritually aligning the tapu sacredness of the Wharetangata, holistically nurturing the mind, body, and spirit.

To Māori, women are te whare tangata / the house of humanity. Recognised for the vital roles of providing life and nurturing future generations; Traditionally wahine are treated with the same consideration as Papatūānuku, the mother of earth.

This treatment supports and encourages wahine to release, cleanse and reclaim the divine sacredness of the inner Mareikura

Wharetangata Ora Hauora

With set intentions and willingness to release, Wharetangata Ora Treatments assists to purge inner child trauma, birthing, sexual and ancestral traumas - releasing imprints from the past to heal & rebalance the sacred womb.

Mind 🧠 Intentional set releases allows the mind to replace inner child, feminine and wharetangata held trauma within our thoughts, feelings, heart & sub-consciousness with clarity & insight. Allowing it to re-focus on the present & look towards the future with hope.

Body 🚶 Rongoā supports a deep internal detoxification, toning and cleansing experience of the wharetangata - further enhanced with an external Massage to draw out toxins, reduce excess fluid retention, and assists to alleviate puffiness, inflammation & irritation.

Spirit ✨ The release of stagnant energy held within the body and sacred womb, enhances clearer connection with the higher-self and the divine feminine.
