

Keep It Simple (Stupid)

I love I love I love I love my baby (2x)

Isn't it hard to be with someone
Where every day your compromising
With the coffee on the sugar spoon
You giving your take if that's what you need
You push it to the edge and
then you bring it back so you can breathe
So hard but it's simple

I love I love I love I love my baby (2x)

Doing your part to get up that hill
You pull each other up and down
It ain't no ride, but it's a thrill
Love ain't so easy
And together it's hard
If you do it right, there's nothing like it
If you don't, it's time to start
So hard but it's simple

I love I love I love I love my baby (4x)

Love will never leave you feeling
Like you've got it all figured out
Just when everything is falling down around you is when you find out

So hard but it's simple
Solo
So hard but it's simple
I love I love I love I love my baby
