

STAY WITH ME

I've been away for far too long or so it seems I didn't think that I
Would be missing you like I've never missed you before and now that I
Will be coming home, I'm coming home just as fast as my feet can fly
My feet can fly
Even now a minute from you I'm so damn excited I don't wanna hide it
I miss you every single day I think of you
Come stay with me in West Virginia
Cause you're in Delaware all alone
And everyday we spend together
Is like another day I'm at home
I'm so glad we had this time together
It gives me faith hope and love I need
I couldn't need it anymore and I'll tell you now as you're walkin out the door
I love you more and more, more and more
Even now a minute away I feel so damn sad I can't stay awake but I'm
Right here where I didn't know I wanted to be
Come stay with me in West Virginia
Cause you're in Delaware all alone
And everyday we spend together
Is like another day I'm at home
Come stay with me in West Virginia
Cause you're in Delaware all alone
And everyday we spend together
Is like another day I'm at home
I didn't think that I, could ever wanna, come back, come back
