

## Woke Up Smiling

kiss by the morning sun  
I woke up with a smile on my face  
Leaving all the noise behind  
Filling up my soul for the day

Chorus  
I woke up with a smile today, Yeah Yeah  
A greeting from the sun  
Leaving that noise behind

My smile wakes the warrior  
Sleeping deep inside my mind  
My armor radiates,  
impervious to the day's embrace

I woke up with a smile today, Yeah Yeah  
Greetings from the sun  
Leave that noise behind

Break  
I didn't notice for far too long  
It ain't never too late to give a smile to someone

I woke up with a smile today, Yeah Yeah  
A greeting from the sun  
Leave that noise behind

A morning smile tells me all is well  
before the world awakes  
A morning Melody sets the rhythm  
of the day and harmony

I woke up with a smile today, Yeah Yeah  
A greeting from the sun  
Leave that noise behind  
I woke up with a smile today, Yeah Yeah

A greeting from the sun  
Leaving that noise behind
