Civil Engineer

Scherer Design Group, LLC - Lebanon, NJ 08833

Company Description

Scherer Design Group, LLC (SDG) is a privately-owned consulting firm specializing in Telecommunications, EV charging and Utility infrastructure design solutions. Headquartered in Lebanon, NJ, SDG is licensed in multiple states and certified as a Woman Owned Business Enterprise.

Role Description

The ideal candidate is someone with telecom knowledge and/or land development experience and intuitive thinking skills. This is a full-time hybrid role with a minimum of three days in the Lebanon, NJ office. This role will be responsible supporting the design of new site builds.

Responsibilities:

- Design of telecom sites from conception to construction, including layout from scratch, antenna mount design & site plan approval
- Development and review of construction drawings, specifications, and detailing for new and existing cell sites
- Perform site inspections and condition assessments on existing sites and prepare reports
- Support the training of Jr Engineers and CAD designers
- Prepare sketches and perform drafting using AutoCAD

Qualifications

- Bachelor's degree in civil engineering with minimum 2 years' experience, telecom experience preferred
- If no degree, must have a minimum of 4 years telecom design experience
- Land development experience required
- Experience with developing drawings in AutoCAD
- Knowledge of building envelope structural components
- Knowledge of construction drawing standards
- Ability to perform inspections of sites and other structures, both visually and with instruments
- Ability to record data clearly and write passages for reports, letters, etc.
- Ability to drive and safely operate a motor vehicle

Job Type: Full-time

Salary: 60,000 – 80,000 annually
