Business is growing and you're ready to add timesaving tabbing technology to your mailing operations.

The newly designed RENA Systems T-250 is a perfect companion to our tabletop Envelope Imager series of inkjet addressing systems. The T-250 takes paper, translucent or clear tabs. Every tab is a tight secure seal, to meet all US postal requirements.

With the RENA Systems T-250, you get the advantages and cost savings of high-speed tabbing in one compact unit. New feed roller material works better longer. It can handle

flyers, programs, announcements, calendars and any other pieces that need to be sealed with a simple tab, up to 12,000 pieces per hour. The versatile T-250 handles a variety of material sizes and pieces up to 5/32" thick. Tab size can be 5/8" to 1-1/2".

It's easy to set up and easy to operate for a continuous and reliable performance. The RENA Systems T-250 Single Tabber will improve the effectiveness of your mailings while keeping down costs. Remember, folded mailers won't qualify for USPS automation discounts without tabs.
