

Architectural Control Committee

The Architectural Control Committee (ACC) was formed because we take pride in our Vantage Pointe community. To keep our community beautiful all homeowners/renters need to abide by the Rules and Regulations, as well as the Architectural Control Standards established and approved by the Vantage Pointe Board of Directors.

The ACC exists to inform the Board of Directors of a correction that needs to be made, often quite minor and occasionally major. We are doing a service for the community by attempting to have our homes and community maintained in an attractive manner and thereby maintaining our property values.
